PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Assessed identity and access management (IAM) practices for enterprise clients, identifying security gaps against industry best practices and client risk appetites.
- Designed and implemented identity solutions, including Privileged Access Management (PAM) and Customer IAM (CIAM) components, to meet specific customer security requirements.
- Supported interactive workshops and meetings with IT and business stakeholders to gather requirements and define technical specifications for identity engineering projects.
- Developed and deployed identity engineering solutions, contributing to the integration of new identity platforms within client environments.
- Managed change control processes for system configurations and coordinated User Acceptance Testing (UAT) for identity-related system updates.
- Analyzed and resolved production incidents for enterprise Java/.NET applications, maintaining service level agreements (SLAs) through proactive monitoring and root cause analysis.
- Containerized Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing startup times by **15%**.

SKILLS

Identity & Access Management – IAM, CIAM, PAM, Identity Engineering, Identity Solutions, Saviynt, Okta, CyberArk

Security Concepts – Information Security, Cyber Security, Security Posture, Risk Appetite, Control Objectives

Development & Scripting – Java, Spring Boot, REST APIs, Python, SQL, Shell Scripting

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Jenkins, Git, Splunk, Dynatrace

PROJECTS

Enterprise IAM Assessment and Roadmapping

- Conducted comprehensive assessments of client IAM/PAM/CIAM infrastructure, evaluating against industry best practices and identifying key areas for security improvement.
- Developed strategic roadmaps for identity solution implementation, prioritizing recommendations based on client risk tolerance and business objectives.
- Authored detailed assessment reports and presented findings to senior IT and business stakeholders, facilitating buy-in for proposed security enhancements.

Java Application Support & Automation

- Provided production support for enterprise **Java** applications, troubleshooting and resolving P1/P2 incidents within strict SLAs.
- Automated data validation and reporting tasks using **Python** scripting, reducing manual effort by approximately **20%** for the operations team.
- Managed SQL database changes and performed ad-hoc data analysis across **PostgreSQL** and **Oracle** databases to support operational queries.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
