PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Led technical discovery sessions with prospective SMB clients, translating complex business needs into actionable integration architecture patterns for **AI solutions**.
- Designed and delivered technical walkthroughs and light proofs-of-concept to demonstrate platform capabilities, focusing on **API integration** and customer-specific use cases.
- Provided expert guidance on **API usage**, including authentication mechanisms, rate limits, endpoint configurations, and performance considerations to accelerate customer adoption.
- Advised enterprise customers on **security posture**, covering data handling, encryption, access control, and compliance standards, assisting with risk assessments.
- Collaborated with **Product and Engineering teams** to escalate technical issues, influence roadmap decisions, and share critical customer insights from sales cycles.
- Developed detailed solution proposals and documentation, including recommended architectures and configuration guidelines, to support sales teams and ensure technical feasibility.
- Containerized Java Spring Boot microservices using **Docker** and deployed them to an **AWS EKS** cluster, managing basic resource configurations and deployment pipelines via Jenkins.

SKILLS

Pre-Sales – Solution Engineering, Technical Discovery, Solution Design, Architecture Patterns, Proof of Concept, Demos, Walkthroughs

API Integration – RESTful APIs, Authentication, Rate Limiting, API Usage, Data Flow Design, JSON Payloads

Security & Compliance – Data Handling, Encryption, Access Control, Identity Management, Network Controls, GDPR, SOC2, ISO 27001

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker, Kubernetes, EKS

Programming & Scripting – Java, Spring Boot, Python, Shell Scripting

Databases & Data – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Git, Jenkins, Splunk, Dynatrace

PROJECTS

Customer Integration Design for AI Platform

- Designed end-to-end integration strategies for enterprise clients adopting an **AI platform**, mapping business workflows to technical API endpoints and data flows.
- Developed reusable **solution architecture diagrams** and configuration guides for common customer use cases, reducing onboarding time for technical teams by an estimated 15%.
- Authored technical documentation on **API security best practices**, including authentication patterns and data residency considerations, for a diverse set of enterprise customers.

Java-based Payments Operations Dashboard Enhancement

- Engineered **Java Spring Boot** microservices to process and monitor transaction messages within a payments operations dashboard, improving data visibility for operations teams.
- Implemented robust error handling and alerting mechanisms using **Splunk** and custom logging, reducing critical incident response time by ~20% for payment processing issues.
- Collaborated with business analysts to define requirements for new monitoring features, ensuring alignment with operational needs and audit trail compliance.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
