PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Led technical discovery sessions with **enterprise customers**, translating business requirements into actionable **solution architectures** and implementation plans for SaaS platforms.
- Designed and presented technical demos and light **proofs of concept** that showcased core AI solution capabilities against customer-specific use cases and integration needs.
- Advised on **API integration best practices**, including authentication patterns, rate limits, endpoint design, and performance considerations for seamless system dependencies.
- Documented recommended **architectural diagrams** and configuration guidelines for deploying complex SaaS solutions, ensuring clarity for both technical and non-technical stakeholders.
- Collaborated with internal **Product and Engineering teams** to provide customer feedback, influence roadmap decisions, and identify potential technical blockers for faster customer adoption.
- Supported **Customer Success teams** during the initial post-sale phase, ensuring smooth technical handoff and verifying implementation readiness for AI-driven solutions.
- Containerized **Java Spring Boot microservices** and deployed them to an AWS EKS cluster, managing configurations and resource allocation for predictable performance.

SKILLS

Pre-Sales & Solution Design – Solution Engineering, Technical Discovery, Solution Architecture, Proof of Concept (PoC), Demos, Walkthroughs, Requirements Translation, Integration Design, API Integration, SaaS Platforms, Cloud Technologies, AI/ML Solutions

Security & Compliance – Security Posture, Data Handling, Encryption, Authentication, Access Control, Compliance Standards, Risk Assessment, Enterprise Security Standards, GDPR

Technical Skills – Java, Spring Boot, REST APIs, SQL, PostgreSQL, Python, Docker, AWS (EC2, S3, Lambda, CloudWatch), Kubernetes, Linux, Git, Jenkins

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, R, RStudio, pandas, NumPy, scikit-learn

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace, CI/CD

PROJECTS

Customer Onboarding for AI Integration Platform

- Developed a standardized technical onboarding process for new enterprise customers integrating with an AI platform, reducing initial setup time by **~30%**.
- Designed and documented API integration workflows, providing clear guidance on authentication, data schemas, and error handling for seamless customer system connectivity.
- Conducted pre-sales technical deep-dives and post-sales implementation support sessions for two key clients, addressing security and configuration queries.

Performance Optimization of Java Microservices

- Refactored core **Java Spring Boot services**, optimizing database interactions with **JPA** and implementing efficient caching strategies, resulting in a **45% reduction** in average API response times.
- Containerized the microservices using **Docker** and orchestrated deployments on an **AWS EKS cluster**, improving deployment frequency and stability.
- Implemented comprehensive **JUnit** and integration tests, increasing code coverage by **20%** and reducing post-deployment defects.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
