PROFESSIONAL EXPERIENCE — 3.5+ YEARS

Trust & Safety Agent — Accenture, Dublin, Ireland Jul 2026 – Present

- Review and action user-generated content against a large-scale online platform's community standards and policies.
- Investigate escalated abuse cases, including harassment, hate speech, and scams, documenting enforcement decisions.
- Identify and flag emerging abuse trends by analyzing content and user behaviour patterns.
- Meet stringent quality, calibration, accuracy, and productivity targets for content moderation.

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed Java Spring Boot applications, building REST APIs for integrating business systems and supporting rule-based validation.
- Wrote Python scripts for automation, data pipelines, and ETL processes, aiding in data analysis for operational insights.
- Executed SQL queries for data validation and schema changes, supporting data integrity in financial transaction systems.
- Managed production support for enterprise applications, responding to P1/P2 incidents under strict SLAs.
- Monitored system health and performance using Splunk and CloudWatch, performing log analysis for issue diagnosis.
- Handled escalations from operations teams, documenting incident details and contributing to post-implementation triage.
- Supported a payments operations dashboard, monitoring transaction flows and operational alerting for failed messages.

SKILLS

Content Moderation & Policy Enforcement – Community standards, policy enforcement, content review, policy guidelines, policy development, policy governance.

Investigations & Risk Assessment – Escalations, abuse cases, emerging abuse trends, risk assessment, fraud, scams, inauthentic behaviour.

AI & Technology – Responsible AI, generative AI, AI systems testing, prompt strategies, large language models, data analysis, data modelling, data warehousing, ETL, Python, SQL, Java, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, R, pandas, NumPy, scikit-learn.

Operations & Quality – Quality assurance, quality targets, accuracy targets, productivity targets, incident management, SLA management, change-control management, UAT support, cross-functional collaboration.

Communication & Resilience – Comprehension, communication, Spanish, English, objective decision-making, critical thinking, attention to detail, stress management, emotional resilience, coping skills, cultural awareness.

PROJECTS

Customer Churn Prediction Model (MSc Data Analytics)

- Developed a predictive model using Python (pandas, scikit-learn) to identify users at risk of churn on an online platform.
- Analyzed user behaviour data and platform interaction metrics to inform feature engineering and model evaluation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
