PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported the development and implementation of an **AI Governance Framework**, managing the intake and assessment of AI use cases for regulatory compliance.
- Assisted in the identification, assessment, monitoring, and reporting of **AI-related risks**, including those associated with machine learning models and large language models.
- Coordinated AI governance committee activities by scheduling meetings, preparing agendas, and tracking action items to ensure adherence to emerging regulations like the **EU AI Act**.
- Provided guidance and support to stakeholders across Technology, Risk, Compliance, and business units on governance requirements and responsible AI practices.
- Contributed to the development of training materials and awareness programs aimed at enhancing organizational **AI literacy** and promoting risk-aware AI adoption.
- Managed the intake and assessment of **AI use cases**, ensuring submissions were complete and reviewed through appropriate governance channels, processing approximately 40 submissions per quarter.
- Maintained governance artefacts including policies, standards, and procedures, ensuring updated documentation for over 15 core AI initiatives.

SKILLS

AI Governance & Risk – AI Governance Framework, AI Risk Management, Responsible AI, Model Governance, AI Compliance, EU AI Act, Technology Risk, IT Risk, Operational Risk

AI Technologies – Machine Learning, Generative AI, Large Language Models (LLMs), AI Model Training, Data Processing Risks

Stakeholder Engagement – Cross-functional Collaboration, Governance Committees, Risk Reporting, Compliance Oversight, Training Material Development

Core Technologies – Python, Java, SQL, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins

Data & Analytics – Power BI, Tableau, pandas, NumPy, scikit-learn, Data Warehousing, DAX, Power Query

PROJECTS

AI Governance Framework Implementation Support

- Supported the implementation of an **AI Governance Framework** for a financial services client, focusing on risk assessment and compliance with emerging regulations.
- Managed the intake and initial assessment of over 50 **AI use cases**, ensuring completeness of documentation and alignment with internal policies.
- Assisted in drafting and updating governance artefacts, including policies and procedural guidance, for a team of 12 AI initiative stakeholders.

AI Risk Assessment and Reporting Dashboard

- Developed a **Power BI dashboard** to track and report on key AI risks, integrating data from multiple sources to provide insights into model lifecycle management and data processing concerns.
- Contributed to risk assessments for various AI solutions, including machine learning models and LLM deployments, by analyzing potential impacts and control effectiveness.
- Collaborated with Risk and Compliance teams to define **Key Risk Indicators (KRIs)** for AI initiatives, establishing baseline metrics for ongoing monitoring.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
