## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Managed the full repair lifecycle for allocated service requests, including initial technical diagnosis, parts identification, and completion of approved repairs for customer equipment.
- Provided a professional, customer-focused technical support via telephone and email, addressing inquiries and resolving issues for both internal colleagues and external customers.
- Delivered high-quality service and repair within agreed SLAs to customers, ensuring functional and safety testing where applicable and accurate documentation of all work completed.
- Prepared quotations for service and repair work, maintaining accuracy of customer service records within the **ERP system** and ensuring adherence to company policies and industry regulations.
- Maintained a safe, clean, and organized workshop environment, including appropriate control and storage of tools, equipment, parts, and customer devices, upholding high standards of housekeeping.
- Liaised and cooperated with sales and customer service departments to ensure a seamless customer experience and effective cross-functional initiatives, demonstrating excellent communication and interpersonal skills.
- Participated in the achievement of personal and team objectives, demonstrating accountability for ongoing professional development and working towards **ISO accreditation**.

## SKILLS

**Service & Repair** – Technical Diagnosis, Equipment Assessment, Repair Quotations, Functional Testing, Safety Testing, Documentation, Customer Communication
