HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed Python-based AI agents and workflow automations for enterprise-wide productivity enhancements, integrating with **Microsoft Power Platform** and **SAP/ERP** systems.
- Designed and implemented reusable components and APIs with robust exception handling, logging, and access controls to facilitate seamless integration across diverse enterprise platforms.
- Engineered solutions using **generative AI** models, **large language models**, and **Retrieval-Augmented Generation (RAG)** patterns to extract insights from enterprise data.
- Applied secure development practices, including **source control** management with Git, comprehensive testing strategies, and controlled release management throughout the solution lifecycle.
- Monitored production AI and automation solutions, resolving issues related to model performance, agent reliability, and workflow integration, delivering controlled enhancements to maintain operational efficiency.
- Created detailed technical documentation, evaluation records, runbooks, and support procedures, facilitating knowledge transfer to users and colleagues to ensure solution sustainability.
- Managed the full lifecycle of AI and automation solutions, from detailed technical design and development to integration, testing, deployment, and ongoing production support.

SKILLS

AI & Automation – Generative AI, Large Language Models, AI Agents, Prompt Engineering, Retrieval-Augmented Generation (RAG), Microsoft Copilot Studio, Azure AI, Azure OpenAI, Tool Calling, Structured Outputs

Development Languages – Python, SQL, Bash

Platforms & Frameworks – Microsoft Power Platform, SAP/ERP Integration, APIs, REST APIs, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Source Control, Release Management, Environment Management

Databases – PostgreSQL, MySQL, Oracle

Observability & Support – Splunk, Dynatrace, Production Support, Incident Response, Monitoring, Logging, Exception Handling

PROJECTS

AI-Powered Workflow Automation for Enterprise Operations

- Developed Python scripts to automate repetitive tasks within the **ERP system**, reducing manual data entry by an estimated **40%** for the finance operations team.
- Integrated a **generative AI** model via API to assist in summarizing lengthy operational reports, improving comprehension speed for business analysts by approximately **30%**.
- Containerized the automation services using **Docker** and deployed them on **AWS Lambda**, ensuring scalable and cost-effective execution.

Intelligent Document Processing with Large Language Models

- Built a proof-of-concept application using **Python** and **FastAPI** to process and extract key information from unstructured documents using **large language models**.
- Implemented **Retrieval-Augmented Generation (RAG)** to ground LLM responses with enterprise knowledge base content, improving accuracy for information retrieval tasks.
- Designed a user interface prototype demonstrating the AI's capability to answer complex queries based on processed documents.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
