HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed user behavior and product performance across **100M+ downloads** to identify key trends and opportunities for feature optimization.
- Designed and developed interactive **Power BI dashboards** and reports for business stakeholders, translating complex data into actionable insights.
- Extracted, cleaned, and structured large datasets using **SQL** and **Python (pandas)**, ensuring data accuracy for reporting and analysis.
- Defined and tracked key performance indicators (KPIs) for marketing and product initiatives, contributing to a **15% improvement** in user engagement metrics.
- Collaborated with product managers and engineers to provide **data-driven insights**, informing decisions on new feature development and user experience enhancements.
- Conducted **A/B testing** and experiment analysis to evaluate the impact of product changes, identifying strategies that increased conversion rates by **~8%**.
- Managed and optimized data pipelines using **Python scripting**, processing approximately **500,000 user events** daily to support analytics requirements.

SKILLS

Data Visualization – Power BI, Tableau, Looker, Google Data Studio, DAX, Power Query

Programming & Scripting – Python, R, SQL

Data Analysis & Statistics – A/B Testing, Statistical Analysis, Exploratory Data Analysis, Regression, Time-Series Analysis, Hypothesis Testing

Business Intelligence Tools – Google Analytics, Mixpanel, Amplitude

Data Warehousing & ETL – Data Modeling, Data Pipeline Optimization, BigQuery, Redshift, Snowflake

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

PROJECTS

User Engagement Dashboard for Mobile App Analytics

- Developed a comprehensive **Power BI dashboard** to visualize user engagement metrics, including daily active users, session duration, and feature adoption rates for a hypothetical enterprise application.
- Integrated data from simulated event streams using **Python**, performing ETL processes with **pandas** to clean and transform raw user interaction data before loading into a data model.
- Presented key findings and performance trends from the dashboard to simulated business stakeholders, identifying opportunities to improve user retention by **~12%**.

Customer Funnel Analysis and Optimization

- Performed in-depth analysis of user journeys and customer funnels using **SQL** and **Python (pandas)** on a dataset simulating **~1.5 million user interactions**.
- Identified critical drop-off points within the user onboarding flow, recommending targeted improvements that could potentially reduce friction by **20%**.
- Collaborated with a hypothetical product team to design and analyze an **A/B test** for a redesigned registration process, measuring the impact on completion rates.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
