HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed user behavior and product performance metrics across **100 million downloads** to identify key trends and opportunities for feature optimization.
- Developed and maintained interactive **dashboards and reports** using **Power BI** and **Tableau** to provide actionable insights to product and marketing teams.
- Collected, cleaned, and structured large datasets using **SQL** and **Python (pandas)**, ensuring data accuracy and usability for downstream analysis.
- Defined and tracked key performance indicators (KPIs) for product engagement and marketing campaign effectiveness, reporting on trends to leadership.
- Collaborated with product managers and engineers to translate business requirements into data analysis tasks and provide data-driven recommendations.
- Conducted **A/B testing** and experiment analysis on new product features, contributing to a **15% increase** in user engagement for key funnels.
- Identified and documented bottlenecks in user journeys and customer funnels, translating findings into actionable insights that informed product roadmap decisions.

SKILLS

Data Analysis & BI – SQL, Python, R, Power BI, Tableau, Google Data Studio, Looker, DAX, Power Query, Data Modelling, Data Warehousing, Business Intelligence, A/B Testing, Statistical Analysis, Time-Series Analysis, Exploratory Data Analysis

Programming & Scripting – Python, R, Java, Spring Boot, Flask, FastAPI

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Shell Scripting

Databases – PostgreSQL, MySQL, Oracle, BigQuery, Redshift, Snowflake

Tools & Methodologies – Jira, Confluence, Git, Jenkins, Agile, Scrum, ETL, Change Management, Splunk, Dynatrace, PagerDuty, Grafana

PROJECTS

Customer Analytics Dashboard for User Engagement

- Developed a comprehensive **Power BI dashboard** to visualize user behavior patterns and product adoption trends for enterprise customers.
- Engineered **SQL queries** to extract and aggregate data from multiple sources, structuring it for efficient reporting and analysis of **~50,000 daily active users**.
- Integrated **DAX measures** to calculate key engagement metrics, enabling stakeholders to monitor user retention and feature usage in near real-time.

Python-based ETL Pipeline for A/B Test Data

- Built an automated **Python ETL pipeline** using **pandas** to process and clean raw event data from user analytics platforms.
- Implemented logic to segment users based on experimental groups, preparing datasets for statistical analysis and hypothesis testing of **new feature rollouts**.
- Designed the pipeline to handle a daily influx of approximately **2.8 million events**, ensuring timely availability of data for experiment evaluation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
