HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and optimized release pipelines using **Jenkins** to ensure the smooth deployment of software updates, reducing manual intervention by **40%**.
- Defined and maintained versioning strategies, ensuring consistency across development, staging, and production environments using **GitFlow**.
- Coordinated with engineering, QA, and DevOps teams to ensure timely and stable releases, contributing to an average of **3 major releases per quarter**.
- Automated build, release, and deployment processes using **Python scripting** and **Bash**, improving deployment efficiency and reliability.
- Monitored and troubleshot release-related issues, ensuring minimal downtime and achieving an average of **99.5% availability** for deployment tooling.
- Maintained comprehensive documentation for release workflows, rollback plans, and deployment strategies, improving team knowledge sharing.
- Implemented and maintained **feature flagging** strategies to enable controlled rollouts of new application features.

SKILLS

CI/CD Tools – Jenkins, GitHub Actions, GitLab CI, CircleCI, ArgoCD

Version Control – Git, GitFlow, Trunk-Based Development

Containerization & Cloud – Docker, Kubernetes, AWS

Scripting Languages – Bash, Python, PowerShell

Build Systems – Xcode, Gradle, Webpack

Methodologies – Agile, Scrum

PROJECTS

Automated Release Pipeline Orchestration (HCL Technologies)

- Designed and implemented an automated release pipeline using **Jenkins** and **Groovy scripting** to manage builds, testing, and deployments for enterprise Java applications.
- Integrated **Docker** containerization into the CI/CD workflow, ensuring consistent deployment environments across development and production.
- Developed comprehensive rollback strategies and documentation, reducing recovery time for critical deployments by an estimated **30%**.

Application Deployment Automation Framework (HCL Technologies)

- Created a **Python**-based framework to automate common deployment tasks and configurations on **AWS EC2** instances, supporting a fleet of over 50 servers.
- Implemented robust logging and monitoring using **Splunk** to track deployment status and troubleshoot issues effectively.
- Collaborated with operations teams to define deployment best practices and streamline the change management process.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
