## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Managed and maintained corporate IT infrastructure, including **SaaS applications** and **cloud services**, ensuring high availability for internal operations.
- Oversaw user access, account provisioning, and **identity management** across multiple platforms like Google Workspace and Okta, streamlining employee onboarding and offboarding processes.
- Implemented and enforced IT **security best practices**, including **multi-factor authentication (MFA)** and **role-based access control (RBAC)**, to protect sensitive company data.
- Provided **technical support** and training to employees across various departments, resolving hardware, software, and connectivity issues to ensure smooth system usage.
- Automated repetitive IT operations and workflows using **Python scripting** and shell scripts, reducing manual effort by approximately **15%** for routine tasks.
- Monitored and optimized **hardware and software performance** across company endpoints and servers, troubleshooting issues proactively to minimize downtime.
- Maintained detailed IT documentation, including **software license compliance** and system configurations, supporting **GDPR** requirements and audit readiness.

## SKILLS

**Identity & Access Management** – Okta, Azure AD, Google Workspace, MFA, RBAC

**Cloud & SaaS Management** – AWS, Google Workspace, Microsoft 365, SaaS applications, Slack, Zoom, Notion, Atlassian

**Endpoint & Network Security** – Endpoint protection, Data encryption, VPNs, Firewalls, Zero-trust security, Jamf, Intune

**IT Support & Operations** – IT administration, Systems administration, Technical support, Onboarding, Offboarding, IT documentation, Change management

**Scripting & Automation** – Python, Bash, PowerShell, Shell scripting

**Compliance & Best Practices** – IT compliance, Data privacy regulations, GDPR, SOC 2, Security best practices

## PROJECTS

### Internal IT Infrastructure Automation Suite

- Developed a suite of **Python scripts** to automate common IT administration tasks, including user account creation in **Google Workspace** and software deployment checks.
- Implemented **API integrations** with SaaS tools like Slack and Zoom to automate notification workflows and status updates, improving team awareness of system changes.
- Created **shell scripts** for log analysis and system health checks on Linux-based servers, reducing manual monitoring time by an estimated **20%**.

### Employee Onboarding & Offboarding Workflow Optimization

- Designed and documented an optimized workflow for **employee onboarding and offboarding**, integrating steps for account provisioning, hardware setup, and access control across **Okta** and company applications.
- Developed **PowerShell scripts** to automate the deactivation of user accounts and revocation of access upon employee departure, ensuring timely security compliance.
- Collaborated with HR and Operations teams to refine the process, resulting in a **30% reduction** in the average onboarding time for new hires.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
