PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Coordinated and executed testing activities for intraocular lens (IOL) and delivery-device components, ensuring adherence to approved protocols and good documentation practices.
- Supported the procurement, installation, and qualification of laboratory assets, including analytical instrumentation and testing equipment.
- Evaluated test results and technical data to identify trends, risks, and opportunities for improvement in laboratory operations.
- Assisted in writing and reviewing qualification, validation, and testing study protocols and reports, ensuring compliance with quality system requirements.
- Monitored laboratory inventory requirements, managing procurement for spare parts, viscoelastic materials, and surgical instruments to maintain operational continuity.
- Provided technical expertise for design verification, characterization, and investigative testing activities, troubleshooting routine technical issues.
- Organized and documented analytical testing in collaboration with site-based and remote team members, maintaining compliance with regulatory requirements.

SKILLS

Domain Expertise – Intraocular Lens (IOL) Testing, Delivery-Device Testing, Medical Device Testing, Product Testing, Laboratory Operations, Design Verification, Characterization, Validation, Investigative Testing

Quality & Compliance – Good Documentation Practices (GDP), Regulatory Requirements, Quality System Requirements, Audits, Inspections

Laboratory Management – Procurement, Inventory Management, Equipment Qualification, Protocol Execution, Data Archiving, Technical Documentation

Technical Skills – Analytical Instrumentation, Laboratory Equipment, Data Analysis, Trend Identification, Risk Assessment, Technical Troubleshooting

Project & Process – Protocol Writing, Report Review, Study Design, Project Planning, Continuous Improvement, Cross-functional Collaboration

PROJECTS

IOL Product Testing Protocol Development

- Developed detailed testing protocols for a new generation of intraocular lenses, outlining specific test methods and acceptance criteria.
- Collaborated with R&D; engineers to define critical-to-quality (CTQ) characteristics for IOLs and delivery devices based on product design specifications.
- Ensured all protocol documentation adhered to internal quality standards and relevant medical device regulatory guidelines.

Laboratory Equipment Qualification & Maintenance

- Executed Installation Qualification (IQ) and Operational Qualification (OQ) protocols for new analytical instruments used in IOL testing.
- Managed a preventative maintenance schedule for key laboratory equipment, reducing unexpected downtime by approximately 15% over a six-month period.
- Documented all qualification activities and maintenance logs in compliance with Good Laboratory Practices (GLP).

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
