HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained standardized operating procedures for **hyperscale data center infrastructure**, encompassing facilities, IT systems, and assets, improving process consistency by **18%**.
- Implemented automation scripts using **Python** to streamline incident response workflows, reducing average ticket resolution time by **22%**.
- Managed change control processes for system configurations and updates across interconnected enterprise systems, coordinating User Acceptance Testing (UAT) and post-go-live support for **ERP modules**.
- Collaborated with cross-functional teams to drive the adoption of digitalization and automation in operations management, focusing on intelligent operations for IT infrastructure.
- Participated in the planning and design phases for new **data center infrastructure** components, including server equipment and network architecture.
- Monitored and analyzed operational performance data from **Splunk and Dynatrace** to identify areas for efficiency improvements and provide insights for the IDC platform.
- Containerized Java Spring Boot applications using **Docker** for consistent deployment across development and staging environments.

SKILLS

Cloud Infrastructure – Alibaba Cloud, AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

Programming & Scripting – Python, Java, Spring Boot, SQL, Shell Scripting

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, Data Mining

Operations & Support – Incident Management, Problem Management, Change Management, Risk Management, SLA Management, Splunk, Dynatrace, Linux

Enterprise Systems – ERP, IT Infrastructure, Network Architecture, REST APIs, PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, CI/CD, Jenkins

PROJECTS

Data Center Operations Automation Framework (HCL Technologies)

- Developed a Python-based framework to automate routine operational tasks within a financial services data center environment, including log analysis and system health checks.
- Integrated the automation framework with **CI/CD pipelines** using Jenkins for scheduled execution and reporting, reducing manual intervention by **40%**.
- Designed and implemented standardized incident reporting templates to capture key metrics and facilitate faster root cause analysis for operational issues.

IT Infrastructure Monitoring and Alerting System (MSc Project)

- Built an integrated monitoring system using **Python and AWS Lambda** to collect metrics from various IT infrastructure components, including servers and network devices.
- Developed custom alerting rules within **CloudWatch** based on performance thresholds and error rates, reducing critical alert fatigue by **30%**.
- Created a **Power BI dashboard** to visualize real-time system health, uptime, and key performance indicators for IT infrastructure stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
