PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python** scripts to automate ETL processes, reducing manual data ingestion time by approximately **40%** for daily reporting tasks.
- Developed and maintained **Java Spring Boot** REST APIs for internal services, handling approximately **3,500** requests per hour and ensuring seamless data exchange between modules.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, resolving P1/P2 incidents within defined SLAs and conducting root cause analysis for recurring issues.
- Contributed to a software project you personally own by integrating a **state-of-the-art AI coding assistant** to accelerate feature development and bug resolution.
- Evaluated and selected optimal code suggestions from an AI assistant, providing clear, concise explanations for reasoning to improve AI model performance.
- Refactored existing codebases to enhance maintainability and performance, applying principles of clean code and design patterns within your own project.
- Containerized application components using **Docker** and deployed them to a **Kubernetes** cluster, ensuring consistent environments across development and staging.

SKILLS

Languages – Python, Java, SQL, R, HTML, CSS

Frameworks & Libraries – Spring Boot, Hibernate, JUnit, scikit-learn, pandas, NumPy, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

AI-Assisted Code Refactoring Tool

- Developed a **Python**-based command-line tool to integrate with an AI coding assistant API for automated code refactoring suggestions on user-provided repositories.
- Implemented logic to parse code files, send relevant snippets to the AI for analysis, and present refactored code options with explanations, aiming to improve developer productivity by **20%** on targeted tasks.
- Designed a user feedback mechanism allowing developers to rate AI suggestions, storing this data for future model improvement cycles.

Personal Portfolio Website with CI/CD

- Built a responsive personal portfolio website using **React** and **FastAPI** for the backend API, showcasing personal projects and technical skills.
- Configured a **Jenkins** CI/CD pipeline to automate the build, test, and deployment of the website to an **AWS S3** bucket, reducing manual deployment time by **75%**.
- Integrated a simple analytics dashboard using **Power BI** to track website traffic and user engagement patterns.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
