HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Responded to and triaged security incidents across critical cloud services, escalating issues to internal service teams and ensuring timely remediation within defined SLAs.
- Designed and coordinated cohesive responses to security events involving multiple teams, balancing technical risks with business impact to achieve optimal outcomes.
- Developed internal-facing security utilities in **Python** to automate routine tasks, enabling the security operations team to operate at higher speed and scale.
- Provided subject matter expertise on **system security** and **authentication** architectures, advising development teams on best practices for secure system design.
- Evaluated the impact of emerging security trends and advisories on the organization's security posture, recommending proactive mitigation strategies.
- Mentored junior security engineers on incident response procedures and security best practices, fostering knowledge sharing within the team and across the company.
- Managed production support for enterprise Java applications, performing log analysis with **Splunk** and incident response for P1/P2 issues, maintaining operational stability.

SKILLS

Cloud Security – AWS Security Cloud Response, Incident Response, Security Operations, Threat Modeling, Penetration Testing, Vulnerability Assessment

Programming Languages – Python, Java, SQL, Ruby, Go, Swift, C++

Networking – HTTP, DNS, TCP/IP

Security Concepts – Cryptography, Software Security, Malware Analysis, Forensics, Security Intelligence, Authentication, System Security

Tools & Technologies – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git, Jira, Splunk, Dynatrace, PostgreSQL, MySQL, Oracle

PROJECTS

Cloud Security Incident Response Automation

- Developed a **Python**-based tool to automate the ingestion and initial triage of security alerts from various AWS services, reducing manual review time by approximately 40%.
- Integrated the automation tool with internal ticketing systems using **REST APIs**, streamlining the incident escalation process and ensuring faster assignment to relevant teams.
- Implemented logging and reporting features within the tool to track incident response times and identify bottlenecks, supporting continuous improvement of security operations.

Secure System Design & Architecture Review

- Conducted security architecture reviews for new system designs, focusing on **authentication mechanisms** and potential **vulnerabilities** based on threat modeling principles.
- Provided recommendations for implementing secure coding practices and leveraging cryptographic primitives to protect sensitive data in transit and at rest.
- Collaborated with development teams to integrate security requirements into the system development lifecycle, ensuring security was considered from inception.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
