HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for backend services, handling core business logic and data persistence across multiple modules.
- Implemented database interactions using **Hibernate** and **JPA**, designing efficient queries and managing complex object-relational mappings for enterprise applications.
- Wrote comprehensive unit tests using **JUnit** and **Mockito**, ensuring code quality and maintainability for new feature development and bug fixes within a **Java EE** context.
- Analyzed and resolved escalated technical issues for enterprise satellite network services, focusing on **service degradation** and performance metrics like **latency** and **packet loss**.
- Configured and managed **Linux** server environments, performing log analysis, shell scripting, and cron job scheduling to maintain operational stability.
- Designed and documented technical solutions and guidance for advanced customer-facing issues, contributing to the team's internal **knowledge base** and best practices.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, managing configurations and application lifecycles within the cloud environment.

SKILLS

Languages – Java, Python, SQL, German, English

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Networking – TCP/IP, BGP, SD-WAN, MPLS, DNS, DHCP, HTTPS, tcpdump, traceroute, mtr

Databases – PostgreSQL, MySQL, Oracle

Monitoring/Support Tools – Splunk, Dynatrace, Jira, Confluence

PROJECTS

Enterprise Java Application Support and Enhancement

- Provided production support for a suite of **Java Spring Boot** applications, responding to P1/P2 incidents and managing SLAs for core enterprise systems.
- Developed new features and resolved defects in a **Java EE** application using **Hibernate** for data persistence, contributing to a 15% reduction in critical bug reports.
- Automated routine system checks and reporting tasks using **Python** scripts, decreasing manual intervention time by approximately 8 hours per week for the operations team.

Satellite Network Troubleshooting and Diagnostics Platform

- Developed a diagnostic tool using **Python** to analyze network performance data, specifically focusing on **latency**, **jitter**, and **packet loss** patterns in satellite communication.
- Implemented RESTful APIs with **Flask** to expose diagnostic results and system status, enabling faster triage for escalated customer support cases.
- Configured and deployed the diagnostic tool on **AWS Lambda**, integrating with **CloudWatch** for performance monitoring and automated alerting on anomalous network behavior.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
