PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices for backend systems, focusing on robust API design and efficient data handling.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, ensuring adherence to strict SLAs and performing P1/P2 escalation.
- Authored **Python** scripts to automate data extraction, transformation, and loading processes for scheduled reporting, improving data pipeline efficiency.
- Designed and implemented **REST APIs** for inter-service communication, facilitating seamless integration between disparate enterprise systems.
- Configured and managed **AWS** resources including EC2 instances and S3 buckets for application deployment and data storage.
- Collaborated with cross-functional teams to troubleshoot complex satellite network issues, analyzing performance data such as **latency**, **jitter**, and **packet loss** to restore optimal service levels.
- Contributed to the development of technical solutions and documentation for advanced customer guidance, supporting a **global broadband access initiative**.

SKILLS

Cloud & Networking – AWS, EC2, S3, Lambda, CloudWatch, TCP/IP, BGP, SD-WAN, MPLS, DNS, DHCP, HTTPS, Satellite Communications

Languages & Frameworks – Java, Spring Boot, Python, REST APIs, Flask, FastAPI

Databases & Data Tools – SQL, PostgreSQL, MySQL, Oracle, Power BI, DAX, Power Query, pandas, NumPy

Operations & Support – Linux, Shell Scripting, Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Incident Response, On-call Support, Troubleshooting

Domain Knowledge – Network Design, Protocol Troubleshooting, SATCOM, RF Fundamentals, Antenna Control Units (ACUs)

PROJECTS

Enterprise Application Support and Automation (HCL Technologies)

- Provided critical production support for enterprise Java applications, diagnosing and resolving P1/P2 incidents impacting **transaction monitoring** workflows using **Splunk** and **Dynatrace**.
- Developed **Python** automation scripts to streamline ETL processes for operational dashboards, reducing manual reporting effort by approximately **15%** for the financial operations team.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for integrated enterprise systems.

Satellite Network Performance Analysis Tool

- Engineered a **Python**-based tool to ingest and analyze satellite network performance data, including **latency**, **jitter**, and **packet loss**, from multiple sources.
- Developed API integrations to fetch real-time network metrics and implemented data visualization components to highlight service degradation trends for an enterprise customer.
- Designed a modular architecture allowing for easy expansion to incorporate new network protocols and troubleshooting tools, enhancing diagnostic capabilities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
