# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Monitored global data center facilities infrastructure platforms using **Splunk** and **CloudWatch**, ensuring adherence to defined service levels for a critical operations environment.
- Served as a primary Point of Contact for internal operations and cross-functional teams, coordinating responses and disseminating information during high-priority events.
- Assisted in the development of communication and escalation protocols, refining team performance and incident response timelines by an estimated **15%**.
- Contributed to detailed outage post-mortem analyses, identifying root causes and documenting corrective actions to prevent recurrence.
- Managed timely updates to operational records and system status within **Jira** and **Confluence**, maintaining accurate audit trails for facility events.
- Supported coordination and communication efforts during emergency recovery scenarios, ensuring swift and effective resolution of infrastructure disruptions.
- Developed automation scripts in **Python** to streamline data collection for performance reporting and enhance the efficiency of the operations center.

## SKILLS

**Monitoring & Observability** – Splunk, CloudWatch, Dynatrace

**Cloud Infrastructure** – AWS, EC2, S3, Lambda

**Scripting & Automation** – Python, Shell Scripting

**Operations & Support** – Incident Response, SLA Management, On-call Support, Change Management

**Collaboration & Documentation** – Jira, Confluence, Communication Protocols

## PROJECTS

### Data Center Operations Monitoring System

- Engineered a Python-based alerting system that integrated with **AWS CloudWatch** and an internal event bus to notify operations teams of critical infrastructure status changes.
- Developed dashboards in **Splunk** to visualize key operational metrics for a fleet of over 500 servers, enabling proactive identification of potential issues.
- Automated the generation of weekly operational summary reports, reducing manual effort by approximately **4 hours** per week for the support team.

### Facility Infrastructure Event Response Playbook

- Assisted in creating and refining an incident response playbook for facility infrastructure events, detailing escalation paths and communication strategies for a 24x7 operations team.
- Collaborated with senior engineers to define key performance indicators (KPIs) and service level objectives (SLOs) for data center operations, aiming for consistent reliability.
- Documented standard operating procedures for common failure scenarios, improving onboarding time for new team members by an estimated **20%**.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
