PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed inventory levels and warehouse capacity utilization across multiple sites to optimize customer experience and protect manufacturing continuity.
- Drove warehousing operational excellence by developing and analyzing data-driven metrics for key performance indicators, identifying opportunities for improvement.
- Acted as a point of escalation for vendor-related issues, ensuring timely resolution and maintaining strong third-party relationships.
- Performed functional data analysis and reporting for warehouse operations, translating complex data sets into actionable insights for management.
- Collaborated with IT teams and business stakeholders to capture functional and non-functional requirements for system integrations and enhancements.
- Provided input on system integration, User Acceptance Testing (UAT), and performance test plans, ensuring accuracy and completeness for new system rollouts.
- Developed scalable automation solutions for specific operational issues, reducing manual intervention and improving process efficiency within the supply chain.

SKILLS

Supply Chain & Logistics – Inventory Management, Warehouse Operations, Vendor Management, Supply Chain Efficiency, Logistics, Materials Management

Data Analysis & Reporting – Data Analysis, Reporting, Data-Driven Metrics, Excel, Business Analysis

Process Improvement – Operational Excellence, Lean Principles, DMAIC Methodology, Continuous Process Improvement

Cloud & Infrastructure – AWS, AWS Cloud Logistics (ACL)

Software Development & IT – System Integration, User Acceptance Testing (UAT), Performance Testing, Requirements Gathering

PROJECTS

Warehouse Operations Optimization Initiative

- Analyzed operational data from warehouse systems to identify bottlenecks and inefficiencies in material positioning and availability across different storage locations.
- Developed and presented detailed performance reports using **Excel**, highlighting key metrics such as capacity utilization and inventory turnover to stakeholders.
- Collaborated with operations teams to define requirements for automation enhancements, streamlining the process for tracking and managing inventory movements.

Third-Party Vendor Performance Analysis

- Evaluated performance of **third-party vendors** against contractual SLAs and operational requirements for logistics services.
- Implemented data analysis techniques to quantify vendor performance and identify areas requiring escalation or process adjustment.
- Contributed to UAT for new vendor management modules within the warehouse system, ensuring accurate data capture and reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
