HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot applications**, focusing on REST API development and bug fixes for enterprise systems.
- Automated data extraction, transformation, and loading processes using **Python scripting**, improving reporting efficiency for operational teams.
- Managed production incidents for enterprise applications, achieving **SLA targets** through proactive monitoring with **Splunk** and **Dynatrace**.
- Designed and implemented **network automation scripts** using Python to streamline deployment and configuration management for network devices.
- Troubleshot complex **interconnectivity issues**, analyzing network device configurations and low-level application interactions.
- Collaborated with internal partners to implement next-generation platforms and tooling ecosystems, driving efficiency and scalability through automation.
- Containerized network services using **Docker** and deployed them to **AWS EC2 instances**, managing configurations and resource allocation.

SKILLS

Network Engineering – Network Development, Direct Connect, IP Networks, Network Automation, Network Device Configuration, Interconnectivity Troubleshooting

Cloud Platforms – AWS, EC2, S3, Lambda, CloudWatch

Programming Languages – Python, Java, SQL, Bash

Backend Development – Spring Boot, REST APIs, Microservices

DevOps & CI/CD – Docker, Jenkins, Git, Linux

Monitoring & Observability – Splunk, Dynatrace

PROJECTS

Network Automation Framework (HCL Technologies)

- Developed a **Python-based framework** to automate the deployment and configuration of network devices across multiple data centers.
- Integrated **Ansible modules** within Python scripts to manage device configurations, ensuring consistency and reducing manual errors by approximately **40%**.
- Created reusable Python libraries for network device discovery and status checking, improving the speed of network audits.

Direct Connect Service Monitoring Tool (HCL Technologies)

- Built a **Java Spring Boot application** to monitor the health and performance of network connections for a financial services client.
- Implemented **RESTful APIs** to ingest real-time network metrics and developed dashboards for operational visibility into connection status and throughput.
- Integrated with **AWS CloudWatch** to collect and analyze network performance data, identifying potential bottlenecks and proactively alerting support teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
