HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python** scripts for automating data ingestion and report generation processes, reducing manual effort by approximately **40%**.
- Supported and maintained enterprise **Java Spring Boot** applications, addressing production issues and developing new features to enhance system stability.
- Developed and executed **SQL** queries against **PostgreSQL** and **Oracle** databases for data validation, ad-hoc analysis, and schema modification tasks.
- Participated in the support of massive distributed power systems, acting as an escalation point for complex issues and performing deep-dive analysis to identify root causes.
- Collaborated with hardware design teams and service owners to diagnose and resolve issues within the distributed power fleet, ensuring operational continuity.
- Drove improvements in operational efficiency by conducting root cause and trend analysis, contributing to the development of new SLAs and monitoring procedures for critical power infrastructure.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, managing configurations and ensuring efficient resource utilization.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Programming Languages – Python, Java, SQL, Linux Shell Scripting

Frameworks & Libraries – Spring Boot, pandas, NumPy

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Docker, Jenkins, Git

Monitoring & Support Tools – Splunk, Dynatrace

Data Visualization – Power BI, Tableau

PROJECTS

Automated Data Pipeline for Operational Reporting

- Developed a **Python**-based ETL pipeline to extract, transform, and load data from disparate sources into a central repository, supporting daily operational reporting.
- Implemented data validation checks and error handling within the pipeline, ensuring data integrity and reducing report discrepancies by **30%**.
- Deployed the pipeline on **AWS Lambda** and scheduled its execution using **CloudWatch Events** for reliable and automated data processing.

Power Systems Monitoring and Alerting Tool

- Designed and built a dashboard using **Power BI** to visualize key operational metrics for distributed power systems, enabling proactive issue identification.
- Integrated data from multiple monitoring tools into a unified data model, facilitating trend analysis and performance tracking for a fleet of over **500** components.
- Configured alerts based on predefined thresholds, reducing the mean time to detect critical power anomalies by approximately **25%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
