HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Debugged complex system-level issues on embedded x86 platforms, analyzing logs, traces, and hardware behavior to identify root causes for enterprise customers.
- Drove technical support activities for AMD Embedded processors and development tools, collaborating with engineering teams to resolve product defects and technical escalations.
- Reproduced customer-reported issues in laboratory environments, developing specialized test cases to isolate problems in hardware, software, and firmware interactions.
- Provided technical guidance and troubleshooting support to field teams and customers, enabling successful deployment of embedded technologies and ensuring responsiveness objectives.
- Developed automation scripts in **Python** to streamline log analysis and data collection, improving the efficiency of issue reproduction and root cause analysis by approximately **15%**.
- Created and maintained technical documentation, including knowledge articles and troubleshooting guides, to enhance product supportability and customer self-service capabilities.
- Supported new product introductions through readiness, validation, and enablement activities, ensuring comprehensive support coverage for emerging embedded platforms.

SKILLS

Embedded Systems – x86 Processors, Platforms, Software, Development Tools, Board Bring-up, Firmware, BIOS, BSP, Device Drivers

Programming & Scripting – C, C++, **Python**, Shell, PowerShell

Hardware Debugging – Oscilloscopes, Logic Analyzers, Protocol Analyzers, Schematics, High-Speed Interfaces (PCIe, DDR, USB, MIPI)

Operating Systems – Linux, Embedded Operating Systems

Customer Support – Technical Support, Applications Engineering, Troubleshooting, Case Management, Knowledge Management

PROJECTS

Embedded x86 Platform Debugging Suite

- Developed a Python-based automation suite for debugging embedded x86 platforms, integrating with laboratory equipment to automate data capture and analysis.
- Implemented diagnostic scripts to analyze system logs, firmware traces, and hardware behavior, reducing manual debugging time for complex issues by ~**20%**.
- Created a centralized knowledge base for common platform issues and resolutions, accessible to both support engineers and field teams.

Customer Integration Support for Embedded Systems

- Acted as a technical interface for enterprise customers integrating AMD embedded processors into their solutions, providing guidance on platform configuration and software stack.
- Collaborated with internal engineering teams to address customer-specific technical challenges and provide timely resolutions, ensuring smooth product adoption.
- Documented integration best practices and common pitfalls, contributing to improved onboarding documentation for new embedded product deployments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
