PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Acted as primary point of contact for client inquiries, performing **L1 support** for platform users and escalating complex issues to **L2 support** teams, ensuring timely resolution.
- Managed and resolved a queue of **~75-100 support tickets** weekly, prioritizing based on business impact and client SLAs, maintaining consistent communication on progress and workarounds.
- Conducted initial issue diagnosis by reviewing application logs, assessing business impact, and performing pre-production testing to identify root causes and potential configuration changes for client-reported problems.
- Coordinated ticket prioritization with Client Success Managers, serving as a functional liaison for clients during critical incidents and planned maintenance on **Middle Office** and **trading-related modules**.
- Drove client requests and change requirements through to closure by collaborating with **R&D;** and Client Success teams, performing impact analysis and supporting the CRR workflow.
- Developed and maintained **technical and functional documentation** for key platform modules, enhancing team knowledge retention and facilitating smoother onboarding for new client service specialists.
- Contributed to **production reviews** with clients, focusing on analyst tickets and providing insights into operational performance and recurring issues.

SKILLS

Client Services & Support – L1 Support, L2 Support, Incident Management, SLA Management, Root Cause Analysis, Troubleshooting, Ticket Triage, Change Management, UAT Support, Client Communication, Stakeholder Management

Financial Domain – Investment Funds, Asset Management, Front Office, Risk Management, Trustee Clients, Financial Products, Investment Value Chain, Front-to-Back Office Processes

Technical Skills – SQL, Python Scripting, Java Spring Boot, REST APIs, Linux Shell Scripting, Git, Jenkins, Jira, Confluence

Cloud & Monitoring – AWS (EC2, S3, Lambda, CloudWatch), Docker, Splunk, Dynatrace

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Visualisation, Business Intelligence

PROJECTS

Client Support Dashboard Enhancement (HCL Technologies)

- Developed a Python script to automate the aggregation of **operational metrics** from **Splunk** and **Dynatrace** for a financial client's support dashboard, reducing manual reporting time by **~6 hours per week**.
- Implemented new **visualisations in Power BI** to track client ticket resolution times and identify bottlenecks, enabling the operations team to refine their workflow and improve response times by **15%**.
- Collaborated with business analysts to gather requirements for dashboard enhancements, ensuring the final product met the needs for **transaction monitoring** and operational alerting.

Platform Adoption & Training Materials (HCL Technologies)

- Created a comprehensive suite of **functional documentation and user guides** for a financial services operations platform, covering key workflows and common client inquiries.
- Assisted in developing training materials for client onboarding workshops, focusing on best practices for platform utilization and maximizing client adoption of **risk management features**.
- Supported post-implementation triage for new feature rollouts, gathering feedback from operations teams to identify areas for improvement in documentation and user experience.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
