PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Contributed to the **investment decision-making** and manager-selection processes by performing **quantitative analyses** and research on fund performance data.
- Developed and updated **performance reports** for internal and senior management using **Bloomberg** and proprietary tools, highlighting key trends.
- Maintained updated **investment due diligence notes** and meeting summaries in a proprietary database, ensuring accurate record-keeping for ongoing monitoring.
- Collaborated with colleagues internationally on **manager evaluation** activities, sharing insights and contributing to team discussions on new investment ideas.
- Monitored **portfolio performance** and evolving market trends, identifying potential risks and opportunities for assigned asset classes.
- Enhanced a proprietary database by identifying and implementing improvements for **data management** and reporting efficiency, supporting a team of 5 analysts.
- Managed the full lifecycle of **data analysis** tasks, from data extraction and cleaning using **SQL** and **Python** to visualization in **Power BI** for stakeholder presentations.

SKILLS

Investment Analysis – Fund Selection, Due Diligence, Portfolio Monitoring, Market Trends, Investment Ideas

Data Analysis & Reporting – Quantitative Analysis, Statistical Analysis, Performance Reports, Data Visualization

Tools & Platforms – Bloomberg, Morningstar, MPI, Proprietary Databases, Power BI, Tableau

Programming & Scripting – Python, SQL, R

Data Management – Data Extraction, Data Cleaning, Data Modelling, ETL, Power Query

Core Skills – Communication, Presentation Skills, Curiosity, Initiative, Rigor, Teamwork

PROJECTS

Multi-Asset Fund Performance Analysis Platform

- Developed a Python-based data processing pipeline to ingest and aggregate fund performance data from multiple sources, handling approximately 15,000 data points per fund.
- Built interactive **Power BI dashboards** to visualize key performance indicators (KPIs), risk metrics, and historical trends for a portfolio of 50+ multi-asset funds.
- Implemented **DAX measures** to calculate complex financial ratios and performance attribution, enabling deeper analysis for investment decisions.

Investment Manager Due Diligence Database Enhancement

- Designed and implemented enhancements to a proprietary database schema using **SQL** to better track qualitative and quantitative manager due diligence findings.
- Created automated Python scripts to migrate and validate existing manager assessment data, reducing manual data entry by an estimated 40% for the due diligence team.
- Generated standardized **reporting templates** in Python, facilitating the consistent documentation of investment manager evaluations for internal reviews.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
