PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Monitored daily alerts for fund performance and benchmarks, analysing and querying anomalies with source teams and Portfolio Managers to ensure official performance validation.
- Provided consultation to internal clients from Investments and Sales teams, addressing broad queries and facilitating communication across diverse departments.
- Assisted the global products team in the setup and integration of new investment products, ensuring accurate performance and risk figures were available for launch.
- Executed SRRI and PRIIPS regulatory risk calculations, ensuring compliance with financial industry standards.
- Monitored and supported performance contribution and attribution calculations for external clients, maintaining data integrity and accuracy.
- Developed Python scripts to automate data extraction and initial analysis for performance reports, reducing manual processing time by **30%**.
- Managed incident response for production financial-services applications, resolving P1/P2 issues within SLA targets using **Splunk** and **Dynatrace**.

SKILLS

Performance Measurement – Investment Performance, Risk Calculation, SRRI, PRIIPS, Fund Data, Portfolio Analysis

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, SQL, R, Python (pandas, NumPy)

Programming Languages – Python, Java, SQL, R

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Backend & Enterprise – Java Spring Boot, REST APIs, Hibernate, JPA, ERP Systems, Microservices

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Linux, Shell Scripting, Change Management

PROJECTS

Automated Performance Reporting System (HCL Technologies)

- Developed a Python-based system to ingest daily transaction data, perform initial performance calculations, and generate summary reports.
- Integrated with **PostgreSQL** databases to extract historical performance metrics and customer portfolio data, supporting ad-hoc analysis.
- Built interactive dashboards using **Power BI** to visualize key performance indicators and identify trends for business stakeholders.

Client Investment Data Reconciliation Tool (HCL Technologies)

- Engineered a data reconciliation tool in Java Spring Boot to compare client investment holdings data against internal records, identifying discrepancies.
- Implemented RESTful APIs for data ingestion and retrieval, ensuring seamless integration with existing enterprise systems.
- Wrote **JUnit** tests to ensure the accuracy and reliability of the reconciliation logic, achieving over **90%** code coverage.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
