HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, designing and implementing RESTful APIs for internal data exchange, adhering to strict coding standards.
- Engineered data processing pipelines using **Python** and **pandas** to automate ETL tasks, reducing manual data preparation time for reporting by approximately **40%**.
- Managed production support for enterprise applications, responding to P1/P2 incidents and performing root cause analysis using **Splunk** and **Dynatrace**, ensuring adherence to SLAs for critical business operations.
- Collaborated with cross-functional teams to gather requirements and implement features for a financial-services operations dashboard, facilitating seamless transaction monitoring and alerting.
- Developed and optimized complex **SQL** queries across **PostgreSQL** and **Oracle** databases for data validation and ad-hoc reporting, supporting a major banking client's operational needs.
- Containerised Java applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and enabling faster iteration cycles for new feature releases.
- Contributed to Agile ceremonies, including sprint planning and backlog grooming, providing technical estimations and participating in code reviews to maintain code quality.

SKILLS

Programming Languages – Java, Python, SQL, R, TypeScript

Frameworks & Libraries – Spring Boot, Spring, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics Tools – Power BI, Tableau, DAX, Power Query, RStudio

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a payments operations dashboard by developing new **Java Spring Boot** modules to improve real-time transaction monitoring capabilities for enterprise financial clients.
- Implemented automated data ingestion and reconciliation workflows using **Python** scripts and **SQL**, processing approximately **5,000** transaction records daily to ensure data integrity.
- Designed and deployed interactive visualizations within the dashboard using **Power BI**, enabling operations teams to track key performance indicators and identify processing bottlenecks more effectively.

ERP System Integration Automation (HCL Technologies)

- Developed **Python** scripts to automate data extraction and transformation from legacy ERP systems, facilitating smoother integration with downstream reporting tools.
- Created and maintained **SQL** procedures for data validation and cleansing across multiple databases, ensuring accuracy for critical business system updates.
- Collaborated with business analysts to document integration points and support user acceptance testing for system configuration changes, managing the change control process.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
