PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered technical documentation and financial data from engineering, manufacturing, and finance teams to support R&D; tax credit claim preparation.
- Ran manufacturing reports to apportion R&D; activity for eligible project costs, contributing to accurate claim calculations.
- Assisted with the preparation of technical reports and claim narratives, ensuring clarity and completeness for external advisors.
- Managed and tracked headcount against the Business Management Plan (BMP), generating monthly close reports for finance.
- Developed financial walks for headcount and cost projections, identifying opportunities for productivity improvements.
- Supported audit readiness activities by maintaining organized records of qualifying projects and associated evidence.
- Containerized data analysis scripts using **Docker** and deployed them to **AWS Lambda** for efficient, scalable processing of project data.

SKILLS

Core Competencies – R&D; Tax Credits, Data Collection, Stakeholder Engagement, Process Improvement, Audit Readiness, Cost Allocation, Financial Analysis

Programming & Scripting – Python, SQL, Shell Scripting

Cloud & Containerization – AWS (EC2, Lambda, S3, CloudWatch), Docker

Data Analysis & Reporting – Power BI, Tableau, Excel, Manufacturing Reports

Project & System Management – Jira, Confluence, Change Management, Headcount Tracking

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

R&D; Tax Credit Data Aggregation Tool

- Developed a **Python** script to automate the collection and organization of technical documentation from various internal systems, reducing manual effort by an estimated 40%.
- Integrated **SQL** queries to extract and validate project cost data from PostgreSQL and Oracle databases, ensuring accuracy for tax claim submissions.
- Designed a basic reporting interface using **Power BI** to visualize project expenditures and identify potential areas for R&D; tax credit eligibility.

Headcount and BMP Tracking System

- Built a system using **Python** and **Pandas** to track employee headcount against the annual Business Management Plan, flagging variances for review.
- Created automated reports in **Excel** to present monthly headcount summaries and cost analyses to finance stakeholders, improving reporting efficiency.
- Implemented basic data validation checks to ensure the integrity of headcount and cost data before monthly close reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
