PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided remote and onsite technical support for customer infrastructure, networks, servers, and Microsoft 365 environments, diagnosing and resolving issues through to completion.
- Installed, configured, and maintained servers, virtual environments, and networking equipment for enterprise customers, ensuring system reliability and performance.
- Assisted with infrastructure upgrades, migrations, and customer projects, applying security best practices including patching, access controls, and MFA.
- Managed system monitoring, carried out proactive maintenance, and implemented improvements across production environments using tools like **Splunk** and **Dynatrace**.
- Developed **Python scripts** to automate data pipelines and scheduled reporting, improving efficiency for internal operations teams.
- Supported enterprise business systems, including ERP modules, and managed change-control processes for system configuration updates and post-go-live support.
- Administered **Microsoft 365** and **Exchange Online** environments, managing user accounts, mailboxes, and security policies.

SKILLS

Operating Systems – Windows Server, Windows Desktop, Linux

Cloud & Virtualization – AWS (EC2, S3, Lambda, CloudWatch), Azure, Hyper-V, VMware

Networking – TCP/IP, VLANs, Routing, Firewalls, VPNs, DNS, DHCP

Microsoft Ecosystem – Microsoft 365, Exchange Online, Active Directory, PowerShell

Core Technologies – Java, Spring Boot, Python, SQL (PostgreSQL, MySQL, Oracle), REST APIs, Docker, Git, Jenkins

Support Tools – Jira, Confluence, Splunk, Dynatrace

Data & Analytics – Power BI, Tableau, DAX, Power Query, pandas, NumPy

PROJECTS

Enterprise System Integration Support (HCL Technologies)

- Supported and integrated with enterprise ERP modules and operational platforms for a financial-services client, ensuring seamless data flow across interconnected systems.
- Managed change-control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for new feature rollouts.
- Developed REST APIs in **Java Spring Boot** for cross-system data exchange, including request validation and error handling.

Customer Infrastructure & Network Hardening

- Applied security best practices across customer IT environments, including endpoint protection, vulnerability management, and implementing multi-factor authentication (MFA).
- Configured and maintained network equipment, including routers and firewalls, ensuring secure and reliable connectivity for remote and onsite users.
- Provided direct technical support to customers, troubleshooting issues related to servers, virtual environments, and network infrastructure.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
