HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Conducted **manual penetration testing** on custom **ABAP & Java applications** and **SAP Fiori apps** within a hybrid SAP environment, identifying critical security flaws.
- Performed **deep-dive source code reviews** of sophisticated Java applications, uncovering architectural weaknesses and potential security vulnerabilities.
- Developed **custom Python scripts** to automate vulnerability discovery and proof-of-concept exploit generation for enterprise systems.
- Collaborated with **engineering and development teams** to integrate security early in the development lifecycle, advising on secure coding practices.
- Assembled and analyzed **threat & vulnerability data** to highlight trends and contribute to the authoring of enhanced development standards.
- Contributed to the team's security knowledge base by developing **technical documentation** and shaping testing methodologies for the SAP ecosystem.
- Containerized security tools and automation scripts using **Docker** and deployed them to a cloud environment, ensuring consistent execution across testing cycles.

SKILLS

Security Testing – Penetration Testing, Vulnerability Research, Offensive Security, Source Code Review, Exploit Development, Threat Analysis

Programming & Scripting – Python, Java, ABAP, JavaScript, Node.js, Go, Ruby, Bash, PowerShell

Enterprise Systems – SAP S/4HANA, SAP ECC, SAP BTP, SAP Fiori, Ariba, Commerce Cloud, Signavio, LeanIX, ERP Systems

Cloud & Infrastructure – AWS, Azure, GCP, SAP BTP, Kubernetes, Docker, Linux, MacOS

Web & API Security – Web Application Security, API Security, Mobile Interface Security

PROJECTS

SAP ERP Security Assessment & Automation

- Executed comprehensive security assessments of SAP ECC and S/4HANA landscapes, including manual testing of custom Java applications and web interfaces.
- Developed a Python-based tool to automate the detection of common misconfigurations in SAP environments, reducing manual review time by **~40%**.
- Authored detailed reports for engineering teams, outlining identified vulnerabilities, business impact, and actionable remediation steps for the SAP ecosystem.

Enterprise Application Security Testing Framework

- Designed and implemented a reusable framework for security testing of enterprise applications, integrating static code analysis and dynamic testing techniques.
- Wrote **Java code reviews** for critical backend services, identifying potential buffer overflows and injection vulnerabilities.
- Contributed to a shared security knowledge base, documenting testing procedures and emerging attack vectors relevant to hybrid enterprise systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
