PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed supply and demand patterns for the EMEIA market, translating complex data into actionable insights for executive audiences.
- Coordinated inventory replenishment strategies across distribution channels, ensuring optimal stock levels and mitigating obsolescence risks for key product lines.
- Developed and monitored Key Performance Indicators (KPIs) for supply chain operations, identifying trends and reporting on performance enhancements to stakeholders.
- Collaborated with cross-functional teams including Logistics, Manufacturing, and Finance to ensure balanced supply and demand across the EMEIA region.
- Designed and implemented continuous improvement initiatives to streamline supply chain processes and enhance system efficiency.
- Managed communication flow with internal and external partners, fostering clarity and alignment on supply chain strategies and execution.
- Owned the development and maintenance of **Python** scripts for automating data extraction and reporting tasks, improving team efficiency by **15%**.

SKILLS

Supply Chain Management – Supply Demand Planning, Inventory Management, Replenishment Planning, Production Planning, Logistics Coordination, Obsolecence Reduction

Analytics & Reporting – Demand Forecasting, Statistical Analysis, KPI Tracking, Performance Metrics, Data Analysis, Business Acumen

Tools & Technologies – MS Excel, Python, SQL, Power BI, Tableau, R, pandas, NumPy, scikit-learn

Collaboration & Communication – Cross-functional Collaboration, Stakeholder Management, Executive Communication, Relationship Building, Partner Communication

Process Improvement – Continuous Improvement, Process Optimization, Problem Solving, Data-Driven Decision Making

PROJECTS

Supply Chain Data Analysis and Reporting Platform

- Developed a **Python**-based data pipeline to ingest and process supply chain data from disparate sources, enabling more accurate demand forecasting.
- Built interactive **Power BI** dashboards to visualize key supply chain metrics, including inventory levels, demand forecasts, and lead times, for operational teams.
- Integrated **SQL** queries to extract and transform data for reporting, supporting analysis of regional product availability and identifying potential bottlenecks.

ERP System Integration for Operational Efficiency

- Supported integration efforts between enterprise systems, including **ERP** modules, to ensure seamless data flow for operational planning.
- Automated data validation processes using **Python** scripting, reducing manual effort in cross-system reconciliation by approximately **20%**.
- Collaborated with business analysts to gather requirements for system enhancements, ensuring alignment with operational needs and data integrity.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
