HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs to support new feature development and integrate with enterprise systems, maintaining code quality through rigorous **Git**-based code reviews.
- Developed and maintained **Hibernate/JPA** entities and queries for a core banking application, ensuring data integrity and efficient retrieval for critical financial operations.
- Authored **JUnit** and **Mockito** tests for Java components, achieving over **85%** code coverage and identifying potential defects during the development cycle.
- Contributed to the preparation of **BIM models** and technical **reports** for infrastructure projects, ensuring alignment with client specifications and regulatory standards.
- Assisted in coordinating engineering tasks across **multiple disciplines**, facilitating smooth project execution and timely delivery of project components.
- Participated in **design reviews** and quality assurance processes to uphold project standards and identify areas for technical improvement.
- Containerised applications using **Docker** and managed deployments on **AWS EC2** instances, contributing to the team's adoption of cloud-native practices.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Power BI, Tableau, Splunk, Dynatrace, Jira, Confluence, BIM

Methodologies – Agile, Scrum, Change Management

PROJECTS

Enterprise Java Application Modernisation

- Refactored legacy Java modules into a **Spring Boot** microservices architecture, improving system modularity and maintainability for an enterprise customer.
- Implemented data persistence using **JPA** and **PostgreSQL**, handling complex relational data for financial transaction processing and reporting.
- Developed comprehensive unit and integration tests with **JUnit** and **Mockito**, ensuring the stability of new service endpoints and API contracts.

Infrastructure Design Data Aggregation Service

- Developed a **Python** service to ingest and aggregate data from various engineering design tools, supporting the creation of consolidated project reports.
- Engineered data transformation pipelines using **pandas** to clean and structure raw input files, enabling consistent data formatting for downstream analysis.
- Contributed to the preparation of technical **specifications** and design documentation for a new client-facing reporting module.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
