HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed network traffic patterns and security logs from enterprise clients using **Splunk** and **CloudWatch** to identify potential threats and anomalous behavior.
- Developed **Python** scripts to automate data extraction and reporting for security posture assessments, reducing manual effort by approximately **40%**.
- Contributed to hardening **Windows** and **Linux** operating systems in client environments by implementing security configurations and baseline security controls.
- Collaborated with senior cybersecurity engineers to analyze customer security incidents reported by the Security Operations Center, identifying structural weaknesses.
- Assisted in troubleshooting security and technical issues within client environments under the guidance of a senior team member.
- Documented technical findings and security best practices to create clear reports for both technical and non-technical customer stakeholders.
- Containerized security tooling using **Docker** for consistent deployment across development and testing environments.

SKILLS

Networking – TCP/IP, Subnetting, Network Protocols

Operating Systems – Windows Hardening, Linux Hardening, Unix Hardening

Security Tools – Firewalls, Antivirus, IDS/IPS

Scripting – Python, Bash, PowerShell

Vulnerability Assessment – Nmap, Nessus, OpenVAS

Incident Response – Security Incident Management, Log Analysis

Security Frameworks – MITRE ATT&CK;, NIST

PROJECTS

Enterprise Security Log Analysis Platform

- Developed a Python-based data pipeline to ingest and process security logs from diverse enterprise sources, including **AWS CloudWatch** and **Splunk**.
- Implemented anomaly detection algorithms using **scikit-learn** to flag suspicious activities, achieving a **78%** detection rate on simulated threat data.
- Built a **Flask** API to serve processed security event data for further analysis and dashboarding by security analysts.

Client Network Security Hardening Guide

- Authored a comprehensive technical guide for hardening customer network infrastructure, detailing best practices for **firewalls** and **IDS/IPS** configurations.
- Created shell scripts to automate the application of baseline security settings on **Linux** servers, reducing manual configuration time by **30%**.
- Provided clear explanations of technical security concepts to non-technical client representatives during review sessions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
