PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Assisted with sustainability data collection and **KPI tracking** for farm supplier, feed, and fertiliser inputs, identifying opportunities for improved data accuracy.
- Supported the maintenance of sustainability action trackers and evidence files, contributing to the preparation of **ESG reporting** and customer sustainability requests.
- Prepared data reports on milk intake performance, including **tanker turnaround times** and intake efficiency metrics, to support operational objectives.
- Contributed to carbon reporting efforts by gathering data across **Scope 1, Scope 2, and Scope 3** areas, supporting emissions-reduction tracking initiatives.
- Assisted in preparing data reports on haulage KPIs, including **milk intake performance** and liquid haulage efficiency, for business analysis.
- Supported internal sustainability communications by gathering updates and preparing content for presentations and project updates to cross-functional teams.
- Collaborated with internal teams to gather updates, track actions, and support the delivery of agreed projects, ensuring timely follow-up on agreed actions.

SKILLS

Data Analysis & Reporting – Excel, Power BI, SharePoint, Data Collection, KPI Tracking, Data Quality, Reporting Automation

Sustainability & ESG – ESG Reporting, Carbon Reporting, Scope 1, Scope 2, Scope 3 Emissions, Origin Green, Environmental Management

Operations & Supply Chain – Milk Intake Performance, Haulage Reporting, Process Improvement, Supplier Engagement, Logistics

Business & Communication – Cross-functional Collaboration, Stakeholder Communication, Presentations, Action Tracking, Business Process Improvement

Core Technologies – SQL, Python, Java, Spring Boot, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence

PROJECTS

Sustainability Data & Reporting Dashboard

- Developed a Power BI dashboard to aggregate and visualize sustainability data, including **Scope 1/2/3 emissions**, farm supplier inputs, and haulage KPIs.
- Implemented data cleaning and transformation logic using Power Query to ensure accuracy and consistency for over **50 distinct data points** per supplier.
- Collaborated with the Group Sustainability Manager to define reporting requirements and present initial dashboard mockups for feedback from the Agri and Operations teams.

Operational Efficiency Reporting Automation

- Automated the generation of weekly milk intake and haulage performance reports using Python scripts, reducing manual effort by an estimated **6 hours per week**.
- Integrated data from multiple sources including operational logs and supplier databases, performing validation checks to ensure data integrity before report generation.
- Designed report layouts and visualizations to clearly communicate key metrics such as tanker turnaround time and intake efficiency to the Operations and Commercial teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
