HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained Python scripts for automating ETL processes and generating scheduled operational reports, processing approximately 1.5 TB of data weekly.
- Designed and implemented REST APIs using **Java Spring Boot** for cross-service data exchange, ensuring robust error handling and request validation.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes within strict SLA targets, reducing critical incident backlog by **18%** over a 6-month period.
- Supported and integrated with enterprise business systems, including ERP modules, coordinating change control management for system updates and UAT.
- Collaborated with clients and business analysts to gather requirements, document concepts, and present technical design ideas for infrastructure technology solutions.
- Reviewed project documentation, applicable codes, and standards to assist in the preparation of reports and presentations for transport and infrastructure clients.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, managing CI/CD pipelines with **Jenkins** for consistent build and deployment cycles.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Hibernate, JPA

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, data modelling, data warehousing

Methodologies – Agile, Scrum

Domain Knowledge – Infrastructure Asset Management, Transport Technology, Operational Reporting

PROJECTS

Enterprise Systems Integration for Transport Operations

- Developed Python scripts to automate data extraction and transformation from disparate transport operational systems into a central data warehouse, enabling consolidated reporting.
- Designed and implemented REST APIs using **Java Spring Boot** to facilitate real-time data flow between the asset management platform and client-facing operational dashboards.
- Collaborated with business analysts to define data requirements and validate the accuracy of integrated data for client reporting on transport infrastructure performance.

Client Reporting Dashboard Enhancement

- Built interactive **Power BI** dashboards to visualize key performance indicators for transport infrastructure asset management, improving stakeholder understanding of operational data.
- Developed complex **DAX** measures and optimized **Power Query** scripts for efficient data aggregation and transformation from multiple client data sources.
- Presented dashboard prototypes and final reports to client stakeholders, gathering feedback and iterating on designs to meet evolving analytical needs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
