PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Researched and analyzed **industry trends** and **market dynamics** for infrastructure and built environment projects, informing strategy development for two client engagements.
- Analyzed **qualitative and quantitative data** from client reports and industry databases to identify opportunities for **sustainable transformation**, shaping recommendations for strategic change initiatives.
- Developed **comprehensive reports and business cases** summarizing key findings, actionable recommendations, and project next steps for senior client stakeholders.
- Supported **stakeholder engagement** activities, including preparing materials for and contributing to client workshops focused on digital transformation and organizational change.
- Managed and coordinated **project activities**, tracking timelines, deliverables, and resource allocation across a multidisciplinary team of consultants.
- Collaborated with **cross-discipline colleagues**, including engineers and urban planners, to address complex client challenges in the transport and sustainability sectors.
- Containerized key data analysis tools using **Docker** and deployed them to a cloud environment, improving reproducibility and access for project teams.

SKILLS

Strategy & Transformation – Industry Trend Analysis, Market Dynamics, Strategic Planning, Business Case Development, Innovation Initiatives, Organizational Change

Data Analysis & Insights – Quantitative Analysis, Qualitative Analysis, Data Visualization, Data Modelling, Business Intelligence, Statistical Methods

Client & Stakeholder Engagement – Stakeholder Management, Workshop Facilitation, Presentation Skills, Client Relationship Management, Business Communication

Project Management – Project Coordination, Timeline Management, Deliverable Tracking, Agile Methodologies, Scrum

Technical Tools – Microsoft Office Suite (PowerPoint, Excel, Word, Teams), Power BI, Miro, SQL, Python (pandas, NumPy), Docker

PROJECTS

Client Strategy & Transformation Analysis

- Conducted in-depth **research into emerging industry trends** and competitive landscapes for a regional infrastructure development client.
- Analyzed **quantitative project data** and qualitative stakeholder feedback to identify key drivers for digital transformation and operational efficiency.
- Prepared a **strategic recommendations report** and presentation for client leadership, outlining actionable steps for sustainable development initiatives.

Data-Driven Insights for Built Environment Projects

- Developed **interactive dashboards in Power BI** to visualize complex datasets related to transport planning and sustainability metrics.
- Extracted and transformed data using **SQL and Python (pandas)** to support analytical models and reporting requirements.
- Collaborated with a small team to map existing business processes, identifying bottlenecks and proposing improvements for a client's project delivery workflow.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
