PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Published and optimised high-quality website content across multiple sections of the enterprise CMS, ensuring adherence to **brand guidelines** and **web standards** for global campaigns.
- Applied **Google Analytics** and **Semrush** data to identify user behaviour patterns and content performance gaps, leading to a **15% improvement** in average page engagement time.
- Conducted comprehensive **quality assurance checks** and supported **website testing** efforts for new feature rollouts and content updates, identifying and documenting **~20 critical bugs** per release cycle.
- Collaborated with cross-functional teams, including Marketing and Design, to gather content requirements and secure approvals for new website sections, managing input from **8 different departments**.
- Optimised online content for **SEO**, implementing keyword strategies and improving meta descriptions, which contributed to a **22% increase** in organic search traffic to key landing pages.
- Ensured digital content met stringent **accessibility standards** (WCAG 2.1 AA), conducting audits and recommending necessary modifications to improve user experience for all audiences.
- Containerised the website's backend services using **Docker** and deployed them to an **AWS EC2** environment, improving deployment consistency and reducing setup time by **30%**.

SKILLS

Content Management Systems (CMS) – Optimizely, Enterprise CMS, CMS
