PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided first-line technical support for hardware, software, and network issues across **Windows 10** and **Microsoft 365** environments, resolving an average of **15 tickets daily**.
- Installed, configured, and maintained IT equipment including **desktops, laptops, printers, and VoIP phones**, ensuring all devices met operational standards.
- Managed user account lifecycle, including **creation, modification, and deletion**, processing over **50 access requests weekly** via the ticketing system.
- Troubleshot and resolved technical issues related to common business applications such as **Microsoft Office Suite**, **email clients**, and **hotel management software**.
- Documented IT systems, maintained **asset registers**, and conducted regular **inventory checks** for hardware and software assets.
- Assisted with the deployment of new software versions and system upgrades, coordinating with end-users to minimize disruption during **installation and configuration**.
- Escalated complex technical problems to senior IT staff or external vendors, ensuring timely resolution and providing detailed **troubleshooting notes** for effective handoff.

SKILLS

Operating Systems – Microsoft Windows 10, Linux

Productivity Suites – Microsoft 365, Microsoft Office Suite

Hardware & Peripherals – Computers, Laptops, Printers, Phones, Network Equipment

Networking Concepts – TCP/IP, DNS, DHCP, LAN/WAN

IT Support Tools – Ticketing Systems, Remote Desktop, Asset Management

Software & Applications – Business Applications, VoIP, Email Clients

PROJECTS

IT Service Desk Enhancement Initiative

- Streamlined the **IT support ticketing system** (Jira Service Management) to improve tracking and resolution times for end-user requests.
- Developed a comprehensive set of **user guides and FAQs** for common IT issues, reducing repeat support inquiries by approximately **20%**.
- Collaborated with operations teams to document and standardize **incident response procedures** for critical system outages.

Workstation Refresh and Deployment Project

- Managed the phased rollout of **new desktop hardware** across multiple departments, including imaging and configuration of **Windows 10** and core business applications.
- Provided post-deployment support and user training on new hardware and software features, ensuring a smooth transition for over **100 employees**.
- Updated and maintained the **IT asset inventory** database with details of all deployed and retired hardware.
