PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Administered and maintained **Empower**, **LabX**, and **LIMS** platforms, ensuring reliable operation within a **GMP** environment and supporting critical laboratory workflows.
- Managed system integrations between **laboratory instruments**, **enterprise applications**, and site **IT/OT infrastructure**, ensuring seamless data flow and communication.
- Coordinated system patching, upgrades, and backup/recovery activities for QC laboratory systems, adhering to site procedures and vendor recommendations to maintain system integrity.
- Supported qualification, validation, and change control processes for laboratory computerized systems, contributing to audit readiness and regulatory compliance.
- Developed and maintained essential system documentation, including administration procedures, support guides, and asset inventories for **QC laboratory systems**.
- Troubleshot software, hardware, network, and instrument communication issues across laboratory platforms and associated equipment, resolving **~95%** of incidents within SLA targets.
- Configured **Windows Server** and managed **Active Directory** user accounts and security settings for laboratory systems, ensuring secure and compliant access.

SKILLS

Laboratory Systems – Empower, LabX, LIMS, CDS, ELN, Instrument Control Software

System Administration – Windows Server, Active Directory, User Management, Security Configuration

IT/OT Infrastructure – System Integrations, Network Troubleshooting, Hardware Support, Software Troubleshooting

Quality & Compliance – GMP, Data Integrity, Regulatory Compliance, Audit Readiness, Qualification, Validation, Change Control

Cloud & Automation – AWS, EC2, S3, Lambda, CloudWatch, Docker, Python Scripting, Jenkins

Databases & Languages – SQL, PostgreSQL, MySQL, Oracle, Java, Spring Boot, Python

PROJECTS

QC System Support for Pharmaceutical Operations

- Provided production support for a suite of **QC laboratory systems**, including **Empower** and **LIMS**, ensuring data integrity and system availability for analytical testing.
- Automated report generation for sample analysis results using **Python scripting** and **SQL queries** against the laboratory database, reducing manual effort by **~40%**.
- Collaborated with laboratory analysts and IT teams to troubleshoot system errors and implement configuration changes, facilitating timely release of pharmaceutical products.

Enterprise Application Integration & Automation

- Developed **Java Spring Boot** REST APIs to integrate the **ERP system** with downstream operational platforms, enabling automated data exchange and reducing manual entry.
- Implemented **Python scripts** for data validation and ETL processes, migrating and transforming data between disparate systems with an accuracy rate of **99.8%**.
- Managed CI/CD pipelines using **Jenkins** and **Git** for automated deployment of Java applications, improving release cycle time by **30%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
