PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Performed preventive and corrective maintenance on **aseptic fill-finish equipment**, including filling lines and autoclaves, ensuring adherence to **cGMP** standards.
- Maintained and troubleshot critical utilities such as **clean steam, WFI, and compressed gases** within ISO 5–8 classified cleanrooms.
- Accurately completed maintenance records, work orders, and deviations, upholding **data integrity** and site standards for regulatory compliance.
- Supported equipment qualification and validation activities for **new product introductions**, contributing to engineering project documentation.
- Developed **Python scripts** for automating data collection and analysis from facility monitoring systems, reducing manual effort by approximately **30%**.
- Contributed to the site's **Operational Excellence Programme** by identifying and implementing process improvements to reduce equipment downtime by an average of **15%**.
- Containerized **Java Spring Boot** microservices used for internal tooling with **Docker**, preparing them for deployment onto an **AWS**-based infrastructure.

SKILLS

Maintenance & Engineering – Preventive Maintenance, Corrective Maintenance, Predictive Maintenance, Equipment Troubleshooting, Utilities Maintenance, Facility Systems, GMP, cGMP, ISO 5, ISO 8

Pharmaceutical & Manufacturing – Aseptic Fill-Finish, Cleanrooms, HVAC, Compressed Gases, WFI, Clean Steam, Process Improvement, Operational Excellence, Lean Six Sigma

Programming & Scripting – Python, Java, Spring Boot, SQL, Shell Scripting

Tools & Technologies – Docker, AWS, EC2, S3, Lambda, CloudWatch, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, PostgreSQL, MySQL, Oracle

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, R, RStudio, pandas, NumPy, scikit-learn

Project & Documentation – Change Control, Validation, Qualification, Technical Support, Documentation, Work Orders, Root Cause Analysis

PROJECTS

Automated Facility Monitoring System Integration

- Developed Python scripts to interface with facility sensors and collect real-time data for environmental monitoring systems.
- Integrated data streams into a centralized PostgreSQL database, enabling more efficient querying and analysis for compliance reporting.
- Built basic dashboards using Power BI to visualize key parameters like temperature, humidity, and pressure, aiding operational oversight.

Java-based Maintenance Workflow Tool

- Engineered a **Java Spring Boot** application to manage and track maintenance requests and work orders within the engineering department.
- Implemented RESTful APIs for integration with existing **Jira** ticketing systems, streamlining the defect tracking process.
- Designed a relational data model in **PostgreSQL** to store maintenance history and asset information, supporting detailed reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
