HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured **Dell PowerEdge servers** with advanced **RAID configurations** and disk array optimization for high-write-volume video storage applications, meeting stringent performance and redundancy requirements.
- Deployed operating systems including **Windows Server** and hardened **Linux distributions** using **PXE boot automation** and **iDRAC Virtual Media**, ensuring adherence to corporate security standards.
- Implemented network segmentation strategies using **VLANs** and dedicated subnets to isolate physical security traffic (CCTV, PIDS, Intercom) from management networks.
- Configured **Quality of Service (QoS) policies** on **Cisco Catalyst switches** to prioritize high-bandwidth video streams, ensuring low latency and minimal packet loss for live monitoring systems.
- Managed **Power over Ethernet (PoE/PoE+)** budgeting and monitoring on access layer switches, ensuring reliable power delivery to IP cameras and security panels.
- Developed detailed **'As-Built' documentation**, including logical and physical topology diagrams, VLAN matrices, and IP assignment records, maintaining accuracy throughout deployment.
- Provided **24x7 technical support** for in-scope infrastructure systems, performing root cause analysis and implementing corrective actions for medium-complexity issues.

SKILLS

Server Hardware – Dell PowerEdge, iDRAC, Lifecycle Controller, OpenManage, RAID controllers (PERC)

Networking – Cisco Catalyst switches, VLAN, QoS, PoE/PoE+, Access Control Lists (ACLs), Cisco IOS CLI

Operating Systems – Windows Server, Linux (hardened distributions)

Deployment & Automation – PXE boot, iDRAC Virtual Media, Python scripting, Shell scripting

Infrastructure Management – Firmware management, Configuration management, Documentation platforms

Support & Operations – 24x7 support, Incident response, Root cause analysis, Mentorship

PROJECTS

Enterprise Server & Network Infrastructure Deployment (HCL Technologies)

- Led hardware provisioning for enterprise clients, configuring **Dell servers** with complex **RAID setups** and optimizing disk arrays for demanding applications.
- Automated OS deployment for **Windows Server** and **Linux** environments using **PXE boot** and **iDRAC Virtual Media**, significantly reducing manual configuration effort.
- Developed comprehensive 'As-Built' documentation packages for deployed infrastructure, including network diagrams and IP allocation records, ensuring clarity for sustainment teams.

Physical Security Network Segmentation & QoS Implementation (HCL Technologies)

- Designed and implemented network segmentation using **VLANs** to isolate sensitive physical security traffic (CCTV, access control) from general IT networks.
- Configured **Quality of Service (QoS)** policies on **Cisco Catalyst switches** to guarantee performance for real-time video streams, achieving <50ms latency.
- Managed **Power over Ethernet (PoE)** configurations on network switches, ensuring stable power delivery to over 200 connected security devices across multiple sites.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
