PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided first-line IT helpdesk support, logging, prioritizing, and escalating over **500 tickets** related to hardware, software, and network issues within a **6-month period**.
- Installed, configured, and maintained **desktop and server infrastructure** across multiple sites, ensuring adherence to agreed security standards for over **150 endpoints**.
- Administered user accounts and access controls within an **Active Directory environment**, processing an average of **20-30 requests daily** for new accounts, modifications, and terminations.
- Delivered network support, including **troubleshooting connectivity issues** and performing performance monitoring on core infrastructure, collaborating with IT colleagues on optimization initiatives.
- Analyzed helpdesk ticket trends to identify root causes for recurring issues, contributing to a **15% reduction** in repeat support calls through improved documentation and user guidance.
- Managed IT asset procurement and licensing, ensuring compliance with information security regulations and maintaining accurate inventory records for over **200 software licenses**.
- Participated in on-call rotations, providing backup support for the IT team and ensuring timely resolution of critical incidents outside of standard business hours.

SKILLS

IT Support & Operations – Helpdesk, Ticketing Systems, Incident Management, Escalation, Problem Solving, Change Management, On-Call Support, SLA Management

Networking – Network Administration, Troubleshooting, Performance Monitoring, TCP/IP, DNS, DHCP, VPN, Network Infrastructure

Operating Systems – Windows Server, Linux, Desktop Support, OS Installation, Configuration

Hardware & Software – PC Support, Server Support, Telecoms Infrastructure, Printers, Software Installation, Hardware Repair

Security – IT Security Best Practices, Access Control, User Account Management, Information Security Regulations

Cloud & Virtualization – AWS (EC2, S3, CloudWatch), Docker, Virtual Machines

Tools & Technologies – Jira, Confluence, Splunk, Dynatrace, Jenkins, Git, Active Directory, Microsoft 365

PROJECTS

Enterprise IT Systems Support & Upgrade (HCL Technologies)

- Supported and integrated with enterprise business systems including ERP modules and operational platforms, managing change control for system configurations.
- Coordinated User Acceptance Testing (UAT) and provided post-go-live support for system updates, ensuring smooth transitions across interconnected platforms.
- Performed root cause analysis on production incidents impacting enterprise systems, contributing to the development of preventative measures and improved runbooks.

Network Infrastructure Monitoring and Enhancement

- Implemented enhanced monitoring solutions using **Splunk and Dynatrace** for network devices and servers, identifying performance bottlenecks and potential failure points.
- Developed **shell scripts on Linux** to automate log analysis and system health checks, reducing manual review time by approximately **30%**.
- Collaborated with senior network engineers on optimizing network configurations, contributing to improved data flow efficiency for internal applications.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
