PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Partnered with senior leaders to define key performance indicators and measure the impact of digital support initiatives on customer engagement and resolution rates.
- Analysed customer journeys across self-service portals, search functions, and assisted support channels to identify friction points and areas for operational improvement.
- Assessed data quality and identified limitations in fragmented data sources, ensuring analytical findings were grounded in reliable evidence for business decision-making.
- Developed and maintained **Power BI** dashboards to visualize customer support trends, adoption metrics, and the effectiveness of digital engagement strategies.
- Communicated complex analytical findings and recommendations to both technical and non-technical stakeholders, influencing strategic decisions for customer technical success.
- Utilised **SQL** to extract, combine, and validate data from disparate sources, including event-level behavioural data and conversational AI logs.
- Explored support data using approved **AI tools** to identify patterns in customer issues and accelerate the analysis of support demand and productivity.

SKILLS

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence, Statistical Analysis, Exploratory Data Analysis, A/B Testing, Time-Series Analysis, Regression, Hypothesis Testing, Machine Learning Fundamentals

Programming & Scripting – Python, pandas, NumPy, R, RStudio, SQL (PostgreSQL, MySQL, Oracle)

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Shell Scripting

Development & Support Tools – Java, Spring Boot, REST APIs, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Data Science Concepts – Data Warehousing, ETL, Machine Learning Evaluation Metrics, Supervised Learning, Unsupervised Learning

Customer Support Platforms – Intercom (Fin AI) or comparable conversational AI platform

PROJECTS

Customer Support Digital Journey Analysis

- Analysed user interactions across a digital support platform to map customer journeys, identifying key drop-off points and areas of high friction in self-service flows.
- Developed interactive **Power BI** dashboards to track user adoption of digital support resources and measure resolution rates for common technical issues.
- Authored a report detailing findings and recommendations for improving the user experience in the self-service knowledge base, aiming to reduce escalations by 15%.

MSc Data Analytics Applied Project

- Engineered ETL pipelines using **Python** and **SQL** to consolidate data from multiple sources for a comprehensive customer behaviour analysis project.
- Applied statistical methods and **scikit-learn** to build predictive models for customer churn, achieving an AUC of **0.78** on a validation set.
- Presented findings and dashboard prototypes to academic and industry panels, demonstrating the practical application of data analytics techniques.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
