PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided end-user desktop and laptop support, including **software installation** and **hardware troubleshooting** for a user base of approximately 400 individuals across multiple departments.
- Managed the end-to-end process for new user onboarding, preparing and configuring **IT assets** and necessary **software tools** to ensure seamless integration into the corporate environment.
- Executed offboarding procedures, including the secure collection, sanitization, and inventory management of **IT assets**, maintaining accurate stock levels for redeployment.
- Delivered executive and VIP support, addressing urgent and high-priority IT issues with a focus on minimal disruption and rapid resolution.
- Coordinated with backend teams to provide **smart-hand support** for network devices, including **switches**, **routers**, and **Wireless APs**, facilitating remote troubleshooting and maintenance.
- Resolved Level 1 issues for **multi-function printers**, IP phones, and video conferencing systems, ensuring reliable communication and office infrastructure.
- Troubleshot and resolved issues with **Microsoft Windows 10** and **Microsoft Office 365** applications, including Outlook, Word, Excel, and PowerPoint, for end-users across the site.

SKILLS

Operating Systems – MS Windows 10, Linux

IT Support Tools – ServiceNow, Jira, Confluence, Splunk, Dynatrace

Hardware – Desktop PCs, Laptops, Printers, Network Devices (Switches, Routers, APs), IP Phones, Video Conference Systems

Software & Applications – Microsoft Office 365 (Outlook, Word, Excel, PowerPoint), SharePoint, VPN

Enterprise Systems – Active Directory, DHCP, DNS, File & Print Services

Cloud & Virtualization – AWS (EC2, S3, Lambda, CloudWatch), Docker

PROJECTS

Enterprise Desktop Deployment and Management

- Configured and deployed **enterprise desktop and laptop computers** using standardized imaging processes for over 200 new hires at HCL Technologies.
- Managed the lifecycle of IT assets, including procurement, deployment, tracking, and E-waste disposal, contributing to a **15% reduction** in unnecessary hardware expenditure.
- Developed and maintained **SOPs and Runbooks** for common desktop support tasks, improving consistency and reducing average resolution time for P1 incidents by approximately **20%**.

Onboarding and Offboarding Process Automation

- Streamlined the new user onboarding process by automating the preparation of **IT assets** and software configurations, reducing setup time by an average of **3 hours per user**.
- Implemented a standardized checklist for IT asset collection and sanitization during offboarding, ensuring data security and efficient inventory management.
- Coordinated with HR and department managers to ensure timely provisioning and de-provisioning of user accounts and access, supporting a **global team**.
