HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Performed advanced **LAN, WAN, Wi-Fi, and VPN troubleshooting** for escalated network issues, diagnosing and resolving problems related to latency and packet loss across multiple client sites.
- Managed **M365, Outlook, Teams, and OneDrive client issues** for enterprise users, acting as a primary escalation point for Level 1 technicians and ensuring timely resolution of complex end-user computing problems.
- Executed approved **Windows and Linux server patching and maintenance activities**, including OS-level troubleshooting and supporting virtualization platforms like **VMware** for VM issues and resource alerts.
- Served as the **primary escalation point for Level 1 field engineers**, performing root cause analysis for recurring incidents and documenting solutions for knowledge transfer.
- Created and maintained **technical documentation, SOPs, and troubleshooting guides** for network and EUC infrastructure, improving handover quality for L1 technicians.
- Interface directly with **customer IT teams and stakeholders** during onsite activities, providing technical explanations and recommendations to ensure optimized infrastructure operations.
- Identified infrastructure risks and performance gaps, contributing to **automation and monitoring enhancement initiatives** to improve overall system reliability.

SKILLS

Networking – LAN, WAN, Wi-Fi, VPN, Switching, Routing, VLANs

End-User Computing (EUC) – Windows, macOS, M365, Outlook, Teams, OneDrive, Active Directory, Endpoint Security

Servers & Virtualization – Windows Server, Linux, VMware, Hyper-V

Storage & Infrastructure – SAN, NAS, LUN Mapping, Disk Management, Backup Validation

IT Service Management – Incident Management, Problem Management, Change Management, ITIL

Tools & Scripting – Jira, Confluence, Jenkins, Git, Splunk, Dynatrace, Shell Scripting, Python

PROJECTS

Enterprise Infrastructure Support & Automation

- Provided **production support for enterprise Java/.NET applications**, managing SLAs and responding to P1/P2 incidents using **Splunk** and **Dynatrace** for monitoring.
- Developed **Python scripts for automation** of data pipelines and scheduled reporting tasks, improving efficiency for operational teams by approximately **15%**.
- Executed **change-control management for system configuration updates** across interconnected systems, coordinating UAT and providing post-go-live support.

Client Network & Server Upgrade Initiative

- Assisted in the deployment of new network hardware, including **switches and routers**, at customer sites, ensuring proper configuration and connectivity.
- Performed **OS-level troubleshooting for Windows servers** and supported **VMware virtualization platforms** during client infrastructure upgrades.
- Created detailed **technical documentation and SOPs** for newly implemented network configurations, facilitating knowledge transfer to onsite support teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
