PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed end-to-end processing of partner data files, including preparation and reconciliation, investigating and resolving approximately 45 data discrepancies per month.
- Oversaw monthly workflow priorities to ensure all Service Level Agreements (SLAs) were met, collaborating with local teams to secure timely data receipt from clients.
- Provided Subject Matter Expert (SME) support for the implementation and onboarding of new partner deals, facilitating smooth integration and operational readiness.
- Created and maintained detailed process documentation for partner data handling and reconciliation workflows, adhering to best practice guidelines.
- Collaborated with IT process owners on new development tasks, completing user acceptance testing and providing feedback on solution designs for production support.
- Addressed and resolved support issues by formulating and delivering solutions, implementing preventative steps to minimize recurrence of data rejection problems.
- Participated in continuous improvement initiatives, providing feedback to the wider Operations team to implement enhancements in data processing and reconciliation.

SKILLS

Data Processing & Reconciliation – File manipulation, Data preparation, Discrepancy investigation, Data validation

Workflow & SLA Management – Monthly workflows, Priority management, Service Level Agreements (SLAs), Timely data receipt

Stakeholder & IT Collaboration – Partner communication, IT process owners, Solution design feedback, Testing

Process & Quality – Process documentation, Best practice guidelines, Quality feedback, Continuous improvement

Problem Solving & Operations – Issue resolution, Root cause analysis, Preventative steps, Operational support, Microsoft Excel (intermediate)

PROJECTS

Partner Data Onboarding and Validation System

- Developed a Python-based system to automate the onboarding and validation of partner data files, reducing manual processing time by approximately 60%.
- Implemented data validation rules using pandas to check for completeness and accuracy against predefined schemas, catching 90% of data quality issues before ingestion.
- Created comprehensive documentation for the new system, including user guides for partner teams and operational runbooks for the support team.

Financial Operations Dashboard Enhancement

- Enhanced an existing payments operations dashboard by integrating new data feeds using Python scripting, enabling real-time monitoring of transaction reconciliation workflows.
- Designed and implemented custom SQL queries across PostgreSQL and Oracle to extract and aggregate data for reconciliation reporting, improving data accuracy for audit trails.
- Collaborated with business analysts to gather requirements for enhanced alerting mechanisms on failed payment messages, contributing to a 15% reduction in critical alert response times.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
