HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise applications, ensuring seamless data exchange and integration across systems.
- Designed and implemented robust persistence layers using **Hibernate** and **JPA**, managing complex relational data models across PostgreSQL and Oracle databases, reducing query complexity by **30%**.
- Authored comprehensive **JUnit** and **Mockito** test suites for Java applications, achieving over **85%** code coverage and significantly reducing production defects.
- Collaborated with cross-functional teams to define and refine technical requirements for new feature development, translating business needs into actionable engineering tasks within an Agile framework.
- Participated in code reviews, providing constructive feedback to peers to maintain high code quality and adherence to established architectural patterns.
- Containerized Java applications using **Docker** and orchestrated deployments on **AWS EC2** instances, improving application portability and simplifying the deployment process.
- Managed incident response for critical production systems, performing root cause analysis using **Splunk** and **Dynatrace** logs to resolve P1/P2 issues within defined SLAs.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Hibernate, JPA, JUnit, Mockito, Maven, Gradle

Databases – PostgreSQL, MySQL, Oracle, SQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Scripting & Automation – Python, Shell Scripting

Monitoring & Observability – Splunk, Dynatrace

Project Management & Collaboration – Jira, Confluence, Agile, Scrum

PROJECTS

Enterprise Java Application Modernization

- Re-architected legacy Java modules into microservices using **Spring Boot**, improving system modularity and enabling independent deployment cycles.
- Implemented data access logic with **JPA** and **Hibernate**, optimizing database interactions and reducing average response times by **22%** for key transactional endpoints.
- Developed comprehensive integration tests using **JUnit** to validate service-to-service communication and data integrity across the new microservice architecture.

Automated Reporting and Data Validation Service

- Developed Python scripts to automate the generation of daily operational reports from relational databases (PostgreSQL, Oracle), consolidating data from multiple sources.
- Implemented data validation checks using pandas to ensure accuracy and consistency of extracted data before report generation, catching approximately **15%** of potential data anomalies.
- Scheduled and monitored script execution using cron jobs on Linux servers, ensuring reliable delivery of reports to business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
