# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Engineered data pipelines using **Python** and **SQL** to automate the extraction, transformation, and loading of construction project data, reducing manual processing time by **40%**.
- Developed and maintained **Java Spring Boot** REST APIs for integrating disparate project management and reporting systems, supporting seamless data exchange across teams.
- Managed production support for enterprise applications on **AWS**, including incident response and monitoring using **Splunk** and **CloudWatch**, ensuring service level agreements were met.
- Collaborated with project managers and digital specialists to integrate **Building Information Modelling (BIM)** data into project workflows, enhancing collaboration and information management.
- Supported the implementation and adoption of digital construction technologies and project systems, facilitating improved project performance across the lifecycle.
- Designed and implemented data analysis solutions using **Power BI** and **DAX** to visualize key performance indicators for construction projects, enabling data-driven decision-making.
- Containerized applications using **Docker** and managed deployments on **Linux** servers, improving deployment consistency and reducing configuration drift.

## SKILLS

**Programming Languages** – Python, Java, SQL, R

**Frameworks & Libraries** – Spring Boot, pandas, NumPy, scikit-learn, DAX, Power Query

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

**Data Visualization & BI** – Power BI, Tableau

**Methodologies** – Agile, Scrum

**Databases** – PostgreSQL, MySQL, Oracle

**Domain Specific** – Building Information Modelling (BIM), Digital Project Solutions, Data Analysis, Information Management, Digital Construction Technologies

## PROJECTS

### Construction Project Data Integration Platform

- Developed a **Python**-based data ingestion service to aggregate project status updates from multiple internal systems and external vendor feeds, processing approximately **5,000** records daily.
- Built interactive **Power BI** dashboards to visualize project timelines, resource allocation, and budget adherence, providing key stakeholders with real-time insights.
- Integrated the data platform with existing enterprise systems via REST APIs, ensuring consistent data flow for reporting and operational analysis.

### Digital Design Coordination Tool

- Created a **Java Spring Boot** application to manage and version control digital design files and associated metadata, facilitating smoother design coordination.
- Implemented role-based access controls and audit trails within the application to ensure secure information management for project teams.
- Designed a modular architecture allowing for future integration of advanced **BIM** analysis tools and clash detection reporting.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
