HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices for backend systems, handling core business logic and data persistence.
- Developed and maintained **Hibernate** ORM mappings and performed complex SQL queries to interact with relational databases, ensuring data integrity and efficient retrieval.
- Authored comprehensive unit and integration tests using **JUnit** and **Mockito** to achieve high code coverage and ensure application stability.
- Contributed to detailed technical estimations and sprint planning sessions within an **Agile/Scrum** framework, collaborating on feature prioritization and task breakdown.
- Participated in code reviews to maintain code quality and mentor junior engineers on best practices for **Java development**.
- Managed CI/CD pipelines using **Jenkins** and Git for automated builds, testing, and deployments, reducing manual intervention by **~40%**.
- Deployed containerized applications using **Docker** to **AWS EC2** instances, configuring basic resource management and logging.

SKILLS

Programming Languages – Java, Python, SQL, R, PL/SQL

Frameworks & Libraries – Spring Boot, Hibernate, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics Tools – Power BI, Tableau, DAX, Power Query

Methodologies – Agile, Scrum, CI/CD

Other – REST APIs, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Enterprise Java Backend for Financial Operations

- Developed a suite of **Java Spring Boot** microservices to support a client's financial operations dashboard, processing transaction data and generating operational alerts.
- Integrated **Hibernate** with PostgreSQL to manage persistence for critical transaction records, ensuring data consistency across multiple application modules.
- Authored **SQL** scripts for data validation and schema evolution, supporting the reporting needs of business analysts and operations teams.

Python Automation for Data Pipeline Enhancement

- Engineered **Python** scripts to automate ETL processes for a data warehousing initiative, transforming and loading data from disparate sources into a central repository.
- Developed **pandas**-based data cleaning and transformation routines, improving the accuracy of downstream analytical reports by **~15%**.
- Scheduled and monitored data pipelines using cron jobs on **Linux**, ensuring timely data availability for reporting cycles.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
