PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered, cleaned, and organised market data from internal systems and external sources to support business decisions within the Client Accounts & Marketing team.
- Developed and maintained **Power BI dashboards** and regular reports, translating complex datasets into actionable insights for business stakeholders.
- Prepared research and insights to support **client account planning** and business development initiatives, identifying emerging trends and potential opportunities.
- Supported competitor research by reviewing publicly available market information, analysing industry developments and strategic positioning.
- Contributed to improving reporting processes by exploring opportunities to automate repetitive tasks, enhancing team efficiency.
- Presented research findings clearly to colleagues with varying technical knowledge, facilitating understanding and informed decision-making.
- Managed and tracked multiple market research tasks and deadlines concurrently, ensuring timely delivery of findings and reports.

SKILLS

Data Analysis & Reporting – Market Research, Data Cleaning, Data Organisation, Trend Identification, Competitor Analysis, Reporting, Presentation.

BI Tools – Power BI, Tableau, DAX, Power Query.

Programming & Scripting – Python, SQL, R.

Data Management – Data Warehousing, Data Modelling.

Project Management – Task Management, Deadline Management, Process Improvement.

Communication – Stakeholder Communication, Teamwork.

PROJECTS

Construction Industry Market Trend Analysis Platform

- Developed a **Python**-based data pipeline to aggregate and clean market data from diverse sources, including industry reports and public financial statements.
- Designed and implemented interactive **Power BI dashboards** to visualise key market trends, client investment plans, and infrastructure development opportunities for the Client Accounts & Marketing team.
- Conducted detailed analysis of raw data to identify patterns and emerging trends, preparing summaries for senior management to inform strategic planning.

Client Engagement Data Visualisation (MSc Project)

- Built a **Power BI** data model incorporating client interaction data and market segmentation, enabling visualisation of engagement patterns.
- Created **DAX measures** to calculate key performance indicators for client relationship management and identify areas for business development.
- Presented the final dashboard and analytical findings to university stakeholders, demonstrating practical application of data analytics in a business context.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
