PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed annual budget planning and rolling forecasts, collaborating with department leads to develop investment cases for new initiatives.
- Automated recurring KPI reporting for leadership using Python scripting, reducing manual effort by approximately 40% and improving data accuracy.
- Produced monthly management accounts with detailed, practical commentary, supporting critical business decisions for Sales, Marketing, and Product teams.
- Drove headcount reporting and workforce planning, closely tracking people costs against the annual budget and identifying variances.
- Led SaaS reporting including ARR, churn, and NRR, providing insights into customer lifetime value (LTV) and customer acquisition cost (CAC).
- Developed and maintained multi-entity accounts, VAT reporting, and consolidation processes, ensuring readiness for year-end audits.
- Implemented robust financial models in Excel for scenario planning, supporting strategic investment decisions across multiple business units.

SKILLS

Finance & FP&A; – Budgeting, Rolling Forecasts, Scenario Modelling, Management Accounts, VAT, Consolidation, Audit, SaaS Reporting, ARR, Churn, NRR, CAC, LTV, Headcount Reporting, Workforce Planning, People Costs

Data Analysis & Reporting – KPI Reporting, Python Scripting, Data Automation, Excel Modelling, Google Sheets Modelling, Business Intelligence

Business Partnering – Sales, Marketing, Product, Operations, Department Leads, Investment Cases, Commercial Influence

Accounting Standards – Month-End Close, Balance Sheet, Multi-Entity Accounts

Tools & Technologies – Excel, Google Sheets, Python

PROJECTS

Financial Planning & Analysis Automation Suite

- Developed a suite of Python scripts to automate the generation of monthly financial reports, including P&L; summaries and expense variance analyses.
- Integrated data from multiple sources using Pandas to create a consolidated view for budget tracking, reducing manual data aggregation time by over 50%.
- Designed and implemented automated alerts for significant deviations from budget, enabling proactive financial management for operational teams.

SaaS Metrics Dashboard for Business Growth

- Built an interactive dashboard using Power BI to visualize key SaaS metrics such as ARR, churn rate, and customer acquisition cost (CAC).
- Developed complex DAX measures to calculate NRR and LTV, providing actionable insights into customer retention and revenue growth patterns.
- Collaborated with the Sales and Product teams to define reporting requirements, ensuring the dashboard directly supported strategic decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
